Abstracts

Glycoprotein 41 - Pipeline Review, H1 2020

SUMMARY

Glycoprotein 41 (gp41) – Gp41 or glycoprotein 41 is a transmembrane protein that contains several sites within its ectodomain that are required for infection of host cells. It is a subunit of the envelope protein complex of retroviruses. The interaction of gp41 fusion peptides with the target cell causes a formation of an intermediate structure which bridges and fuses the viral and host membranes together.

Glycoprotein 41 (gp41) pipeline Target constitutes close to 18 molecules. Out of which approximately 10 molecules are developed by companies and remaining by the universities/institutes. The molecules developed by companies in Phase II, Phase I, IND/CTA Filed, Preclinical and Discovery stages are 2, 1, 1, 5 and 1 respectively. Similarly, the universities portfolio in Phase I, Preclinical and Discovery stages comprises 2, 1 and 5 molecules, respectively. Report covers products from therapy areas Infectious Disease which include indications Human Immunodeficiency Virus (HIV) Infections (AIDS).

The latest report Glycoprotein 41 – Pipeline Review, H1 2020, outlays comprehensive information on the Glycoprotein 41 (gp41) targeted therapeutics, complete with analysis by indications, stage of development, mechanism of action (MoA), route of administration (RoA) and molecule type. It also reviews key players involved in Glycoprotein 41 (gp41) targeted therapeutics development with respective active and dormant or discontinued projects.

The report is built using data and information sourced from proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor

presentations and featured press releases from company/university sites and industry-specific third party sources.

Note: Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

SCOPE

The report provides a snapshot of the global therapeutic landscape for Glycoprotein 41 (gp41)

The report reviews Glycoprotein 41 (gp41) targeted therapeutics under development by companies and universities/research institutes based on information derived from company and industry-specific sources

The report covers pipeline products based on various stages of development ranging from pre-registration till discovery and undisclosed stages

The report features descriptive drug profiles for the pipeline products which includes, product description, descriptive MoA, R&D brief, licensing and collaboration details & other developmental activities

The report reviews key players involved in Glycoprotein 41 (gp41) targeted therapeutics and enlists all their major and minor projects

The report assesses Glycoprotein 41 (gp41) targeted therapeutics based on mechanism of action (MoA), route of administration (RoA) and molecule type

The report summarizes all the dormant and discontinued pipeline projects

The report reviews latest news and deals related to Glycoprotein 41 (gp41) targeted therapeutics

REASONS TO BUY

Gain strategically significant competitor information, analysis, and insights to formulate effective R&D strategies

Identify emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage

Identify and understand the targeted therapy areas and indications for Glycoprotein 41 (gp41)

Identify the use of drugs for target identification and drug repurposing

Identify potential new clients or partners in the target demographic

Develop strategic initiatives by understanding the focus areas of leading companies

Plan mergers and acquisitions effectively by identifying key players and it's most promising pipeline therapeutics

Devise corrective measures for pipeline projects by understanding Glycoprotein 41 (gp41) development landscape

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope

Contents

Introduction

Global Markets Direct Report Coverage

Glycoprotein 41 (gp41) - Overview

Glycoprotein 41 (gp41) - Therapeutics Development

Products under Development by Stage of Development

Products under Development by Therapy Area

Products under Development by Indication

Products under Development by Companies

Products under Development by Universities/Institutes

Glycoprotein 41 (gp41) - Therapeutics Assessment

Assessment by Mechanism of Action

Assessment by Route of Administration

Assessment by Molecule Type

Glycoprotein 41 (gp41) - Companies Involved in Therapeutics Development

Frontier Biotechnologies Inc

Longevity Biotech Inc

Minka Therapeutics SA

Molecular Express Inc

Mymetics Corp

Navigen Inc

Novodux

Osel Inc

Protheragen Inc

Glycoprotein 41 (gp41) - Drug Profiles

albuvirtide LAR - Drug Profile

Product Description

Mechanism Of Action

R&D Progress

CPT-31 - Drug Profile

Product Description

Mechanism Of Action
