## Abstracts

Hepatitis C Virus Envelope Protein E2 - Pipeline Review, H1 2020

### SUMMARY

Hepatitis C Virus Envelope Protein E2 pipeline Target constitutes close to 9 molecules. Out of which approximately 3 molecules are developed by companies and remaining by the universities/institutes. The latest report Hepatitis C Virus Envelope Protein E2 – Pipeline Review, H1 2020, outlays comprehensive information on the Hepatitis C Virus Envelope Protein E2 targeted therapeutics, complete with analysis by indications, stage of development, mechanism of action (MoA), route of administration (RoA) and molecule type.

Hepatitis C Virus Envelope Protein E2 – E2 is a viral structural protein found in the hepatitis C virus. It is present on the viral membrane and functions as a host receptor binding protein mediating entry into host cells. It is an important target for the design of entry inhibitors and vaccine immunogens. The molecules developed by companies in Preclinical stages are 3 respectively. Similarly, the universities portfolio in Phase II, Preclinical and Discovery stages comprises 1, 3 and 2 molecules, respectively. Report covers products from therapy areas Infectious Disease which include indications Hepatitis C.

Furthermore, this report also reviews key players involved in Hepatitis C Virus Envelope Protein E2 targeted therapeutics development with respective active and dormant or discontinued projects. Driven by data and information sourced from proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university

sites and industry-specific third party sources.

**Note:** Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

## **SCOPE**

The report provides a snapshot of the global therapeutic landscape for Hepatitis C Virus Envelope Protein E2

The report reviews Hepatitis C Virus Envelope Protein E2 targeted therapeutics under development by companies and universities/research institutes based on information derived from company and industry-specific sources

The report covers pipeline products based on various stages of development ranging from pre-registration till discovery and undisclosed stages

The report features descriptive drug profiles for the pipeline products which includes, product description, descriptive MoA, R&D brief, licensing and collaboration details & other developmental activities

The report reviews key players involved in Hepatitis C Virus Envelope Protein E2 targeted therapeutics and enlists all their major and minor projects

The report assesses Hepatitis C Virus Envelope Protein E2 targeted therapeutics based on mechanism of action (MoA), route of administration (RoA) and molecule type

The report summarizes all the dormant and discontinued pipeline projects

The report reviews latest news and deals related to Hepatitis C Virus Envelope Protein E2 targeted therapeutics

## **REASONS TO BUY**

Gain strategically significant competitor information, analysis, and insights to formulate effective R&D strategies

Identify emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage

Identify and understand the targeted therapy areas and indications for Hepatitis C Virus Envelope Protein E2

Identify the use of drugs for target identification and drug repurposing

Identify potential new clients or partners in the target demographic

Develop strategic initiatives by understanding the focus areas of leading companies

Plan mergers and acquisitions effectively by identifying key players and it's most promising pipeline therapeutics

Devise corrective measures for pipeline projects by understanding Hepatitis C Virus Envelope Protein E2 development landscape

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope

## Contents

- Introduction
- Global Markets Direct Report Coverage
- Hepatitis C Virus Envelope Protein E2 - Overview
- Hepatitis C Virus Envelope Protein E2 - Therapeutics Development
- Products under Development by Stage of Development
- Products under Development by Therapy Area
- Products under Development by Indication
- Products under Development by Companies
- Products under Development by Universities/Institutes
- Hepatitis C Virus Envelope Protein E2 - Therapeutics Assessment
- Assessment by Mechanism of Action
- Assessment by Route of Administration
- Assessment by Molecule Type
- Hepatitis C Virus Envelope Protein E2 - Companies Involved in Therapeutics Development
- Ennaid Therapeutics LLC
- Integrated BioTherapeutics Inc
- Toray Industries Inc
- Hepatitis C Virus Envelope Protein E2 - Drug Profiles
- CIGB-230 - Drug Profile
- Product Description
- Mechanism Of Action
- R&D Progress
- hepatitis C (strain H77) vaccine - Drug Profile
- Product Description
- Mechanism Of Action
- R&D Progress
- Hepatitis C Virus Envelope Protein E2 - Dormant Products
- Hepatitis C Virus Envelope Protein E2 - Discontinued Products
- Hepatitis C Virus Envelope Protein E2 - Product Development Milestones
- Featured News & Press Releases
- Jun 10, 2013: IBT and Stanford Awarded STTR
- Appendix
- Methodology
- Coverage
- Secondary Research
- Primary Research

## List Of Tables

### LIST OF TABLES

Number of Products under Development by Stage of Development, H1 2020  
Number of Products under Development by Therapy Areas, H1 2020  
Number of Products under Development by Indication, H1 2020  
Number of Products under Development by Companies, H1 2020  
Products under Development by Companies, H1 2020  
Number of Products under Investigation by Universities/Institutes, H1 2020  
Products under Investigation by Universities/Institutes, H1 2020  
Number of Products by Stage and Mechanism of Actions, H1 2020  
Number of Products by Stage and Route of Administration, H1 2020  
Number of Products by Stage and Molecule Type, H1 2020  
Pipeline by Ennaid Therapeutics LLC, H1 2020  
Pipeline by Integrated BioTherapeutics Inc, H1 2020  
Pipeline by Toray Industries Inc, H1 2020  
Dormant Projects, H1 2020  
Discontinued Products, H1 2020

## List Of Figures

### LIST OF FIGURES

Number of Products under Development by Stage of Development, H1 2020

Number of Products by Stage and Mechanism of Actions, H1 2020

Number of Products by Routes of Administration, H1 2020

Number of Products by Stage and Routes of Administration, H1 2020

Number of Products by Molecule Types, H1 2020

Number of Products by Stage and Molecule Types, H1 2020

### COMPANIES MENTIONED

Ennaid Therapeutics LLC

Integrated BioTherapeutics Inc

Toray Industries Inc

## I would like to order

Product name: Hepatitis C Virus Envelope Protein E2 - Pipeline Review, H1 2020

Product link: <https://marketpublishers.com/r/H334981EAE7EN.html>

Price: US\$ 3,500.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

[info@marketpublishers.com](mailto:info@marketpublishers.com)

## Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/H334981EAE7EN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:

First name:  
Last name:  
Email:  
Company:  
Address:
