Abstracts

Hepatitis D - Pipeline Review, H1 2020

SUMMARY

Global Markets Direct's latest Pharmaceutical and Healthcare disease pipeline guide Hepatitis D - Pipeline Review, H1 2020, provides an overview of the Hepatitis D (Infectious Disease) pipeline landscape.

Hepatitis D, also known as the delta virus, is an infection that causes liver to swell. It is caused by the hepatitis D virus (HDV). Symptoms include yellowing of skin and eyes, joint pain, abdominal pains, vomiting, loss of appetite and fatigue. Risk factors include receiving many blood transfusions, abusing intravenous (IV) or injection drugs and being infected while pregnant.

REPORT HIGHLIGHTS

Global Markets Direct's Pharmaceutical and Healthcare latest pipeline guide Hepatitis D - Pipeline Review, H1 2020, provides comprehensive information on the therapeutics under development for Hepatitis D (Infectious Disease), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Hepatitis D (Infectious Disease) pipeline guide also reviews of key players involved in therapeutic development for Hepatitis D and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies/Universities/Institutes, the molecules developed by Companies in Phase III,

Phase II, Phase I, Preclinical and Discovery stages are 3, 2, 1, 4 and 2 respectively. Similarly, the Universities portfolio in Discovery stages comprises 2 molecules, respectively.

Hepatitis D (Infectious Disease) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. The guide is built using data and information sourced from Global Markets Direct's proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

Note: Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

SCOPE

The pipeline guide provides a snapshot of the global therapeutic landscape of Hepatitis D (Infectious Disease).

The pipeline guide reviews pipeline therapeutics for Hepatitis D (Infectious Disease) by companies and universities/research institutes based on information derived from company and industry-specific sources.

The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

The pipeline guide reviews key companies involved in Hepatitis D (Infectious Disease) therapeutics and enlists all their major and minor projects.

The pipeline guide evaluates Hepatitis D (Infectious Disease) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.

The pipeline guide encapsulates all the dormant and discontinued pipeline projects.

The pipeline guide reviews latest news related to pipeline therapeutics for Hepatitis D (Infectious Disease)

REASONS TO BUY

Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.

Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.

Find and recognize significant and varied types of therapeutics under development for Hepatitis D (Infectious Disease).

Classify potential new clients or partners in the target demographic.

Develop tactical initiatives by understanding the focus areas of leading companies.

Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.

Formulate corrective measures for pipeline projects by understanding Hepatitis D (Infectious Disease) pipeline depth and focus of Indication therapeutics.

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.

Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.

Contents

- Introduction

Featured News & Press Releases

Nov 12, 2019: Eiger announces Peginterferon Lambda - Lonafarnib combination interim results in Hepatitis Delta Virus (HDV) infection from phase 2 LIFT study during late-breaker oral presentation at AASLD 2019

Nov 01, 2019: MYR Pharmaceuticals announces multiple presentations at the AASLD Meeting 2019 in Boston

Oct 21, 2019: Eiger announces Peginterferon Lambda combination therapy for treatment of chronic hepatitis delta virus (HDV) infection to be featured in a late-breaking oral presentation at AASLD 2019

Aug 20, 2019: Eiger announces FDA breakthrough therapy designation for Peginterferon Lambda for treatment of hepatitis delta virus infection

Jul 29, 2019: Replicor announces publication of new study examining HBsAg evolution during REP 2139

Jun 10, 2019: Replicor presents final REP 401 data demonstrating persistent functional cure of HBV

May 17, 2019: Eiger BioPharmaceuticals announces transition of Chief Operating Officer and Executive Medical Officer

Apr 11, 2019: Eiger Announces 36% durable virologic response at 24 weeks post-treatment with peginterferon lambda in Phase 2 LIMT HDV Study at The International Liver Congress™ 2019

Apr 04, 2019: MYR Pharmaceuticals announces presentation of final results of the MYR203 study of bulevirtide (Myrcludex) at the International Liver Congress (ILC) 2019 in Vienna

Apr 01, 2019: Replicor to present latest data on the beneficial impact of transaminase flares in achieving HBV functional cure at the 2019 EASL ILC meeting

Mar 26, 2019: Eiger BioPharmaceuticals to Participate in Conferences in April 2019

Mar 26, 2019: Eiger BioPharmaceuticals to participate in conferences

Mar 13, 2019: Eiger late-breaker oral presentation of peginterferon lambda Phase 2 LIMT study at The International Liver Congress 2019

Mar 05, 2019: MYR Pharma announces Grant of Promising Innovative Medicine (PIM)

Designation by British MHRA for Bulevirtide (Myrcludex), the first-in-class entry inhibitor for treatment of chronic hepatitis d infections

Feb 06, 2019: Eiger Biopharmaceuticals announces patent protection for Lonafarnib boosted with Ritonavir for treatment of hepatitis delta virus infection in Europe and Japan
