Abstracts

Human Papillomavirus Minor Capsid Protein L2 - Pipeline Review, H1 2020

SUMMARY

According to the recently published report 'Human Papillomavirus Minor Capsid Protein L2 - Pipeline Review, H1 2020'; Human Papillomavirus Minor Capsid Protein L2 (L2) pipeline Target constitutes close to 5 molecules. Out of which approximately 4 molecules are developed by companies and remaining by the universities/institutes.

Human Papillomavirus Minor Capsid Protein L2 (L2) - L2 is a minor capsid component and lacks the capacity to form VLPs. This protein plays a role in capsid stabilization through interaction with the major capsid protein L1. It also plays a role through its interaction with host dyne in in the intracellular microtubule-dependent transport of viral capsid toward the nucleus. It mediates the viral genome import into the nucleus through binding to host importins.

The report 'Human Papillomavirus Minor Capsid Protein L2 - Pipeline Review, H1 2020' outlays comprehensive information on the Human Papillomavirus Minor Capsid Protein L2 (L2) targeted therapeutics, complete with analysis by indications, stage of development, mechanism of action (MoA), route of administration (RoA) and molecule type; that are being developed by Companies/Universities.

It also reviews key players involved in Human Papillomavirus Minor Capsid Protein L2 (L2) targeted therapeutics development with respective active and dormant or discontinued projects. Currently, The molecules developed by companies in Phase II, Phase I and Preclinical stages are 1, 2 and 1 respectively. Similarly, the universities

portfolio in Phase I stages comprises 1 molecules, respectively. Report covers products from therapy areas Infectious Disease, Oncology and Women's Health which include indications Human Papillomavirus Infections, Cervical Intraepithelial Neoplasia (CIN), Human Papillomavirus (HPV) Associated Cancer and Cervical Cancer.

Note: Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

SCOPE

The report provides a snapshot of the global therapeutic landscape for Human Papillomavirus Minor Capsid Protein L2 (L2)

The report reviews Human Papillomavirus Minor Capsid Protein L2 (L2) targeted therapeutics under development by companies and universities/research institutes based on information derived from company and industry-specific sources

The report covers pipeline products based on various stages of development ranging from pre-registration till discovery and undisclosed stages

The report features descriptive drug profiles for the pipeline products which includes, product description, descriptive MoA, R&D brief, licensing and collaboration details & other developmental activities

The report reviews key players involved in Human Papillomavirus Minor Capsid Protein L2 (L2) targeted therapeutics and enlists all their major and minor projects

The report assesses Human Papillomavirus Minor Capsid Protein L2 (L2) targeted therapeutics based on mechanism of action (MoA), route of administration (RoA) and molecule type

The report summarizes all the dormant and discontinued pipeline projects

The report reviews latest news and deals related to Human Papillomavirus Minor Capsid Protein L2 (L2) targeted therapeutics

REASONS TO BUY

Gain strategically significant competitor information, analysis, and insights to formulate effective R&D strategies

Identify emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage

Identify and understand the targeted therapy areas and indications for Human Papillomavirus Minor Capsid Protein L2 (L2)

Identify the use of drugs for target identification and drug repurposing

Identify potential new clients or partners in the target demographic

Develop strategic initiatives by understanding the focus areas of leading companies

Plan mergers and acquisitions effectively by identifying key players and it's most promising pipeline therapeutics

Devise corrective measures for pipeline projects by understanding Human Papillomavirus Minor Capsid Protein L2 (L2) development landscape

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope

Contents

Introduction

Global Markets Direct Report Coverage

Human Papillomavirus Minor Capsid Protein L2 (L2) - Overview

Human Papillomavirus Minor Capsid Protein L2 (L2) - Therapeutics Development

Products under Development by Stage of Development

Products under Development by Therapy Area

Products under Development by Indication

Products under Development by Companies

Products under Development by Universities/Institutes

Human Papillomavirus Minor Capsid Protein L2 (L2) - Therapeutics Assessment

Assessment by Route of Administration

Assessment by Molecule Type

Human Papillomavirus Minor Capsid Protein L2 (L2) - Companies Involved in
Therapeutics Development

2A Pharma AB
