Hypoglycemia Drugs in Development by Stages, Target, MoA, RoA, Molecule Type and Key Players, 2022 Update

SUMMARY

Global Markets Direct's latest Pharmaceutical and Healthcare disease pipeline guide Hypoglycemia - Drugs in Development by Stages, Target, MoA, RoA, Molecule Type and Key Players, 2022 Update, provides an overview of the Hypoglycemia (Metabolic Disorders) pipeline landscape.

Hypoglycemia is a condition characterized by an abnormally low level of blood sugar (glucose). Symptoms of hypoglycemia include tachycardia, anxiety, shaking, and irritability, feelings of hunger, weakness, tiredness, dizziness, headache, confusion, and trouble concentrating. Risk factors include drug or alcohol consumption, older age, longer duration of diabetes, renal disease, peripheral neuropathy, obesity and cognitive dysfunction.

REPORT HIGHLIGHTS

Global Markets Direct's Pharmaceutical and Healthcare latest pipeline guide Hypoglycemia - Drugs in Development by Stages, Target, MoA, RoA, Molecule Type and Key Players, 2022 Update, provides comprehensive information on the therapeutics under development for Hypoglycemia (Metabolic Disorders), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of

the therapeutics, its complete research and development history and latest news and press releases.

The Hypoglycemia (Metabolic Disorders) pipeline guide also reviews of key players involved in therapeutic development for Hypoglycemia and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies /Universities /Institutes, the molecules developed by Companies in Phase III, Phase II, Phase I, Preclinical, Discovery and Unknown stages are 2, 6, 1, 4, 1 and 2 respectively.

Hypoglycemia (Metabolic Disorders) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. The guide is built using data and information sourced from Global Markets Direct's proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

Note: Certain content / sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

SCOPE

The pipeline guide provides a snapshot of the global therapeutic landscape of Hypoglycemia (Metabolic Disorders).

The pipeline guide reviews pipeline therapeutics for Hypoglycemia (Metabolic Disorders) by companies and universities/research institutes based on information derived from company and industry-specific sources.

The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

The pipeline guide reviews key companies involved in Hypoglycemia (Metabolic Disorders) therapeutics and enlists all their major and minor projects.

The pipeline guide evaluates Hypoglycemia (Metabolic Disorders) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.

The pipeline guide encapsulates all the dormant and discontinued pipeline projects.

The pipeline guide reviews latest news related to pipeline therapeutics for Hypoglycemia (Metabolic Disorders)

REASONS TO BUY

Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.

Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.

Find and recognize significant and varied types of therapeutics under development for Hypoglycemia (Metabolic Disorders).

Classify potential new clients or partners in the target demographic.

Develop tactical initiatives by understanding the focus areas of leading companies.

Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.

Formulate corrective measures for pipeline projects by understanding Hypoglycemia (Metabolic Disorders) pipeline depth and focus of Indication therapeutics.

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand

business potential and scope.

Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.

Featured News & Press Releases

Feb 15, 2022: Zealand Pharma completes enrollment in phase 3 trial of Dasiglucagon in Children with Congenital Hyperinsulinism (CHI)

Dec 16, 2021: Xeris Biopharma announces the availability of Ogluo in the UK through its commercialization partner, Tetris Pharma

Sep 22, 2021: Rezolute presents results from two-week natural history study in congenital hyperinsulinism patients on standard of care therapies at ESPE 2021

Aug 23, 2021: Xeris Pharmaceuticals announces approval of supplemental new drug application (sNDA) of Gvoke Kit for the treatment of severe hypoglycemia

Aug 12, 2021: Zealand Pharma launches ZEGALOGUE (dasiglucagon) injection and advances pipeline programs across multiple therapeutic areas

Aug 05, 2021: Eiger announces FDA Breakthrough Therapy Designation for Avexitide for treatment of congenital hyperinsulinism

Jul 28, 2021: Zucara Therapeutics doses first patients in phase 1b trial of ZT-01

Jun 28, 2021: Eiger BioPharmaceuticals announces presentation of positive phase 2 results of avexitide in congenital hyperinsulinism at the American Diabetes Association Virtual 81st Scientific Session

Jun 24, 2021: Zealand Pharma announces U.S. commercial availability of ZEGALOGUE (dasiglucagon) injection

Jun 16, 2021: Zealand Pharma to present data on Glucagon Analog, Dasiglucagon, at the 81st Annual American Diabetes Association Scientific Sessions

May 26, 2021: Zucara Therapeutics successfully completes single and multiple ascending dose phase 1 trial of ZT-01

May 12, 2021: Zealand Pharma receives first FDA approval and prepares for launch of Zegalogue (dasiglucagon) injection

May 03, 2021: Zealand Pharma announces publication of Phase 3 trial evaluating

efficacy and safety of dasiglucagon for treatment of severe hypoglycemia in adult patients with diabetes

Apr 29, 2021: Xeris Pharmaceuticals receives U.K. MHRA approval of Ogluo (glucagon) Injection for the treatment of severe hypoglycaemia in adults, adolescents, and children aged 2 years and over with diabetes mellitus

Mar 22, 2021: Rezolute presents data on RZ358 in post-gastric bypass hypoglycemia at ENDO 2021
