## Abstracts

Lyme Disease (Infectious Disease) - Drugs in Development, 2021

### SUMMARY

Global Markets Direct's latest Pharmaceutical and Healthcare disease pipeline guide Lyme Disease - Drugs in Development, 2021, provides an overview of the Lyme Disease (Infectious Disease) pipeline landscape.

Lyme disease is a bacterial infection transmitted by a tick. Lyme disease is caused by the bacterium *Borrelia burgdorferi*. Symptoms include rash, fever, chills, fatigue, body aches and headache. Risk factors include age, gender and geographic locations. Treatment includes antibiotics.

### REPORT HIGHLIGHTS

Global Markets Direct's Pharmaceutical and Healthcare latest pipeline guide Lyme Disease - Drugs in Development, 2021, provides comprehensive information on the therapeutics under development for Lyme Disease (Infectious Disease), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Lyme Disease (Infectious Disease) pipeline guide also reviews of key players involved in therapeutic development for Lyme Disease and features dormant and discontinued projects. The guide covers therapeutics under Development by

Companies/Universities/Institutes, the molecules developed by Companies in Phase III, Phase II, Phase I, Preclinical and Discovery stages are 1, 1, 2, 7 and 3 respectively. Similarly, the Universities portfolio in Preclinical and Discovery stages comprises 2 and 1 molecules, respectively.

Lyme Disease (Infectious Disease) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. The guide is built using data and information sourced from Global Markets Direct's proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

**Note:** Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

## SCOPE

The pipeline guide provides a snapshot of the global therapeutic landscape of Lyme Disease (Infectious Disease).

The pipeline guide reviews pipeline therapeutics for Lyme Disease (Infectious Disease) by companies and universities/research institutes based on information derived from company and industry-specific sources.

The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

The pipeline guide reviews key companies involved in Lyme Disease (Infectious Disease) therapeutics and enlists all their major and minor projects.

The pipeline guide evaluates Lyme Disease (Infectious Disease) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA)

and molecule type.

The pipeline guide encapsulates all the dormant and discontinued pipeline projects.

The pipeline guide reviews latest news related to pipeline therapeutics for Lyme Disease (Infectious Disease)

## **REASONS TO BUY**

Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.

Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.

Find and recognize significant and varied types of therapeutics under development for Lyme Disease (Infectious Disease).

Classify potential new clients or partners in the target demographic.

Develop tactical initiatives by understanding the focus areas of leading companies.

Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.

Formulate corrective measures for pipeline projects by understanding Lyme Disease (Infectious Disease) pipeline depth and focus of Indication therapeutics.

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.

Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.

## Contents

- Introduction
- Global Markets Direct Report Coverage
- Lyme Disease - Overview
- Lyme Disease - Therapeutics Development
- Pipeline Overview
- Pipeline by Companies
- Pipeline by Universities/Institutes
- Products under Development by Companies
- Products under Development by Universities/Institutes
- Lyme Disease - Therapeutics Assessment
- Assessment by Target
- Assessment by Mechanism of Action
- Assessment by Route of Administration
- Assessment by Molecule Type
- Lyme Disease - Companies Involved in Therapeutics Development
- Abzyme Therapeutics LLC
- Agile Sciences Inc
- Artes Biotechnology GmbH
- Cortene Inc
- Flightpath BioSciences Inc
- Greffex Inc
- Inovio Pharmaceuticals Inc
- Ixodes AG
- L2 Diagnostics LLC
- NovoBiotic Pharmaceuticals LLC
- Reven Pharmaceuticals Inc
- Valneva SE

### Featured News & Press Releases

Mar 08, 2021: Valneva and Pfizer announce initiation of phase 2 study for Lyme disease vaccine candidate

Dec 02, 2020: Valneva announces acceleration of pediatric development for Lyme disease vaccine candidate

Oct 20, 2020: Valneva announces positive initial results for second phase 2 study of Lyme disease vaccine candidate VLA15

Jul 22, 2020: Valneva announces positive initial results for phase 2 study of Lyme disease vaccine candidate

Sep 30, 2019: Valneva completes recruitment for phase 2 studies of its Lyme Disease vaccine candidate VLA15

Jul 03, 2019: Valneva: Renowned Vaccinologist Dr. Stanley Plotkin to Present on VLA-15 at R&D Investor Day in New York City

Jul 01, 2019: Valneva initiates second phase 2 study for its Lyme Disease Vaccine Candidate VLA15

Jun 12, 2019: Valneva reports successful outcome of phase 2 run-in for its Lyme

disease vaccine candidate

Jun 11, 2019: Valneva to present Lyme Disease vaccine update at R&D Investor Day in New York City on July 9th

Apr 09, 2019: Valneva to present on Lyme vaccine candidate at the 19th World Vaccine Congress

Jan 31, 2019: VALNEVA reports positive initial booster data and final phase 1 data for its lyme disease vaccine candidate

Dec 17, 2018: Valneva starts Phase II trial of VLA15 to treat Lyme disease

Oct 25, 2018: VALNEVA receives positive feedback from EMA on its further development for lyme disease vaccine VLA15

Jul 02, 2018: Valneva Announces Significant Progress of its Lyme Disease Vaccine Candidate

Mar 29, 2018: VALNEVA to Present on Lyme disease candidate VLA-15 at the 18th World Vaccine Congress in Washington, D.C.
