Abstracts

Melanocortin Receptor 4 (MC4R) - Pipeline Review, H1 2018

SUMMARY

According to the recently published report 'Melanocortin Receptor 4 (MC4R) - Pipeline Review, H1 2018'; Melanocortin Receptor 4 (MC4R) pipeline Target constitutes close to 10 molecules. Out of which approximately 8 molecules are developed by companies and remaining by the universities/institutes.

Melanocortin Receptor 4 (MC4R) - Melanocortin 4 receptor (MC4R) is a G protein-coupled receptor involved in the hypothalamic leptin-melanocortin signaling pathway. MC4R is encoded by the MC4R gene. Activation of the MC4R plays a key role in the maintenance of energy homeostasis and is associated with suppression of food intake.

The report 'Melanocortin Receptor 4 (MC4R) - Pipeline Review, H1 2018' outlays comprehensive information on the Melanocortin Receptor 4 (MC4R) targeted therapeutics, complete with analysis by indications, stage of development, mechanism of action (MoA), route of administration (RoA) and molecule type; that are being developed by Companies/Universities.

It also reviews key players involved in Melanocortin Receptor 4 (MC4R) targeted therapeutics development with respective active and dormant or discontinued projects. Currently, The molecules developed by companies in Phase III, Phase II, Phase I and Preclinical stages are 2, 1, 1 and 4 respectively. Similarly, the universities portfolio in Discovery stages comprises 2 molecules, respectively.

Report covers products from therapy areas Metabolic Disorders, Musculoskeletal Disorders, Women's Health, Central Nervous System, Genetic Disorders, Infectious Disease and Male Health which include indications Obesity, Type 2 Diabetes, Alphavirus Infections, Amyotrophic Lateral Sclerosis, Cachexia, Diabetes, Erectile Dysfunction, Female Hypoactive Sexual Desire Disorder, Female Sexual Dysfunction, Gouty Arthritis (Gout), Lipodystrophy, Metabolic Syndrome and Prader-Willi Syndrome (PWS).

Note: Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

SCOPE

The report provides a snapshot of the global therapeutic landscape for Melanocortin Receptor 4 (MC4R)

The report reviews Melanocortin Receptor 4 (MC4R) targeted therapeutics under development by companies and universities/research institutes based on information derived from company and industry-specific sources

The report covers pipeline products based on various stages of development ranging from pre-registration till discovery and undisclosed stages

The report features descriptive drug profiles for the pipeline products which includes, product description, descriptive MoA, R&D brief, licensing and collaboration details & other developmental activities

The report reviews key players involved in Melanocortin Receptor 4 (MC4R) targeted therapeutics and enlists all their major and minor projects

The report assesses Melanocortin Receptor 4 (MC4R) targeted therapeutics based on mechanism of action (MoA), route of administration (RoA) and molecule type

The report summarizes all the dormant and discontinued pipeline projects

The report reviews latest news and deals related to Melanocortin Receptor 4 (MC4R) targeted therapeutics

REASONS TO BUY

Gain strategically significant competitor information, analysis, and insights to formulate effective R&D strategies

Identify emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage

Identify and understand the targeted therapy areas and indications for Melanocortin Receptor 4 (MC4R)

Identify the use of drugs for target identification and drug repurposing

Identify potential new clients or partners in the target demographic

Develop strategic initiatives by understanding the focus areas of leading companies

Plan mergers and acquisitions effectively by identifying key players and it's most promising pipeline therapeutics

Devise corrective measures for pipeline projects by understanding Melanocortin Receptor 4 (MC4R) development landscape

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope

Contents

Introduction

Global Markets Direct Report Coverage

Melanocortin Receptor 4 (MC4R) - Overview

Melanocortin Receptor 4 (MC4R) - Therapeutics Development

Products under Development by Stage of Development

Products under Development by Therapy Area

Products under Development by Indication

Products under Development by Companies

Products under Development by Universities/Institutes

Melanocortin Receptor 4 (MC4R) - Therapeutics Assessment

Assessment by Mechanism of Action

Assessment by Route of Administration

Assessment by Molecule Type

Melanocortin Receptor 4 (MC4R) - Companies Involved in Therapeutics Development

AstraZeneca Plc

Mallinckrodt Plc

Palatin Technologies Inc
