## Abstracts

Myocardial Fibrosis - Pipeline Review, H1 2020

### SUMMARY

Global Markets Direct's latest Pharmaceutical and Healthcare disease pipeline guide Myocardial Fibrosis - Pipeline Review, H1 2020, provides an overview of the Myocardial Fibrosis (Cardiovascular) pipeline landscape.

Myocardial fibrosis is an abnormal thickening of the heart valves due to inappropriate proliferation of cardiac fibroblasts. Symptoms include chest pain, some abdominal swelling, nausea and fatigue.

### REPORT HIGHLIGHTS

Global Markets Direct's Pharmaceutical and Healthcare latest pipeline guide Myocardial Fibrosis - Pipeline Review, H1 2020, provides comprehensive information on the therapeutics under development for Myocardial Fibrosis (Cardiovascular), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Myocardial Fibrosis (Cardiovascular) pipeline guide also reviews of key players involved in therapeutic development for Myocardial Fibrosis and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies/Universities/Institutes, the molecules developed by Companies in Phase II, Phase I, Preclinical and Discovery stages are 1, 2, 8 and 3 respectively. Similarly, the Universities portfolio in Preclinical stages comprises 4 molecules, respectively. Myocardial Fibrosis (Cardiovascular) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making

capabilities and helps to create effective counter strategies to gain competitive advantage. The guide is built using data and information sourced from Global Markets Direct's proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

**Note:** Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

## SCOPE

The pipeline guide provides a snapshot of the global therapeutic landscape of Myocardial Fibrosis (Cardiovascular).

The pipeline guide reviews pipeline therapeutics for Myocardial Fibrosis (Cardiovascular) by companies and universities/research institutes based on information derived from company and industry-specific sources.

The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

The pipeline guide reviews key companies involved in Myocardial Fibrosis (Cardiovascular) therapeutics and enlists all their major and minor projects.

The pipeline guide evaluates Myocardial Fibrosis (Cardiovascular) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.

The pipeline guide encapsulates all the dormant and discontinued pipeline projects.

The pipeline guide reviews latest news related to pipeline therapeutics for Myocardial Fibrosis (Cardiovascular)

## REASONS TO BUY

Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.

Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.

Find and recognize significant and varied types of therapeutics under development for Myocardial Fibrosis (Cardiovascular).

Classify potential new clients or partners in the target demographic.

Develop tactical initiatives by understanding the focus areas of leading companies.

Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.

Formulate corrective measures for pipeline projects by understanding Myocardial Fibrosis (Cardiovascular) pipeline depth and focus of Indication therapeutics.

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.

Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.

## Contents

- Introduction
- Global Markets Direct Report Coverage
- Myocardial Fibrosis - Overview
- Myocardial Fibrosis - Therapeutics Development
- Pipeline Overview
- Pipeline by Companies
- Pipeline by Universities/Institutes
- Products under Development by Companies
- Products under Development by Universities/Institutes
- Myocardial Fibrosis - Therapeutics Assessment
- Assessment by Target
- Assessment by Mechanism of Action
- Assessment by Route of Administration
- Assessment by Molecule Type
- Myocardial Fibrosis - Companies Involved in Therapeutics Development
- Evotec SE
- Galectin Therapeutics Inc
- Haya Therapeutics
- Invivosciences Inc
- Lead Discovery Center GmbH
- Liminal BioSciences Inc
- MandalMed Inc
- NovoMedix LLC
- Palatin Technologies Inc
- Pharmaxis Ltd
- TRACON Pharmaceuticals Inc
- Vectus Biosystems Ltd
- Myocardial Fibrosis - Drug Profiles
- Antisense Oligonucleotides for Myocardial Fibrosis - Drug Profile
- Product Description
- Mechanism Of Action
- R&D Progress
- belapectin - Drug Profile
- Product Description
- Mechanism Of Action

### COMPANIES MENTIONED

Evotec SE  
Galectin Therapeutics Inc  
Haya Therapeutics  
Invivosciences Inc  
Lead Discovery Center GmbH  
Liminal BioSciences Inc  
MandalMed Inc  
NovoMedix LLC  
Palatin Technologies Inc  
Pharmaxis Ltd  
TRACON Pharmaceuticals Inc  
Vectus Biosystems Ltd

## I would like to order

Product name: Myocardial Fibrosis - Pipeline Review, H1 2020

Product link: <https://marketpublishers.com/r/M5267415BA1EN.html>

Price: US\$ 2,000.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

[info@marketpublishers.com](mailto:info@marketpublishers.com)

## Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/M5267415BA1EN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:
