## Abstracts

Neuronal Acetylcholine Receptor Subunit Beta 2 (CHRNA2) - Pipeline Review, H2 2017

### SUMMARY

Neuronal Acetylcholine Receptor Subunit Beta 2 (CHRNA2) - Neuronal acetylcholine receptor subunit beta-2 is a protein encoded by the CHRNA2 gene. Acetylcholine binds to this receptor. This results in extensive change in conformation that affects all subunits and leads to opening of an ion-conducting channel across the plasma membrane permeable to sodium ions.

Neuronal Acetylcholine Receptor Subunit Beta 2 (CHRNA2) pipeline Target constitutes close to 10 molecules. Out of which approximately 8 molecules are developed by companies and remaining by the universities/institutes. The molecules developed by companies in Phase II, Phase I, Preclinical and Discovery stages are 2, 1, 4 and 1 respectively. Similarly, the universities portfolio in Discovery stages comprises 2 molecules, respectively. Report covers products from therapy areas Central Nervous System which include indications Psychiatric Disorders, Smoking Addiction, Alcohol Addiction, Attention Deficit Hyperactivity Disorder (ADHD), Cognitive Disorders, Cognitive Impairment, Major Depressive Disorder, Neurology, Nicotine Addiction and Pain.

The latest report Neuronal Acetylcholine Receptor Subunit Beta 2 (CHRNA2) - Pipeline Review, H2 2017, outlays comprehensive information on the Neuronal Acetylcholine Receptor Subunit Beta 2 (CHRNA2) targeted therapeutics, complete with analysis by indications, stage of development, mechanism of action (MoA), route of administration (RoA) and molecule type. It also reviews key players involved in Neuronal Acetylcholine

Receptor Subunit Beta 2 (CHRNA2) targeted therapeutics development with respective active and dormant or discontinued projects.

The report is built using data and information sourced from proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources.

**Note:** Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

## SCOPE

The report provides a snapshot of the global therapeutic landscape for Neuronal Acetylcholine Receptor Subunit Beta 2 (CHRNA2)

The report reviews Neuronal Acetylcholine Receptor Subunit Beta 2 (CHRNA2) targeted therapeutics under development by companies and universities/research institutes based on information derived from company and industry-specific sources

The report covers pipeline products based on various stages of development ranging from pre-registration till discovery and undisclosed stages

The report features descriptive drug profiles for the pipeline products which includes, product description, descriptive MoA, R&D brief, licensing and collaboration details & other developmental activities

The report reviews key players involved in Neuronal Acetylcholine Receptor Subunit Beta 2 (CHRNA2) targeted therapeutics and enlists all their major and minor projects

The report assesses Neuronal Acetylcholine Receptor Subunit Beta 2 (CHRNA2) targeted therapeutics based on mechanism of action (MoA), route of administration (RoA) and molecule type

The report summarizes all the dormant and discontinued pipeline projects

The report reviews latest news and deals related to Neuronal Acetylcholine

## Receptor Subunit Beta 2 (CHRNA2) targeted therapeutics

### REASONS TO BUY

Gain strategically significant competitor information, analysis, and insights to formulate effective R&D strategies

Identify emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage

Identify and understand the targeted therapy areas and indications for Neuronal Acetylcholine Receptor Subunit Beta 2 (CHRNA2)

Identify the use of drugs for target identification and drug repurposing

Identify potential new clients or partners in the target demographic

Develop strategic initiatives by understanding the focus areas of leading companies

Plan mergers and acquisitions effectively by identifying key players and it's most promising pipeline therapeutics

Devise corrective measures for pipeline projects by understanding Neuronal Acetylcholine Receptor Subunit Beta 2 (CHRNA2) development landscape

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope

## Contents

Introduction

Global Markets Direct Report Coverage

Neuronal Acetylcholine Receptor Subunit Beta 2 (CHRNA2) - Overview

## I would like to order

Product name: Neuronal Acetylcholine Receptor Subunit Beta 2 (CHRNA2) - Pipeline Review, H2 2017

Product link: <https://marketpublishers.com/r/NA89C86C523EN.html>

Price: US\$ 3,500.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

[info@marketpublishers.com](mailto:info@marketpublishers.com)

## Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/NA89C86C523EN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:
