Abstracts

Osteoporosis Drugs in Development by Stages, Target, MoA, RoA, Molecule Type and Key Players, 2022 Update

SUMMARY

Global Markets Direct's latest Pharmaceutical and Healthcare disease pipeline guide Osteoporosis - Drugs In Development, 2022, provides an overview of the Osteoporosis (Metabolic Disorders) pipeline landscape.

Osteoporosis, or thinning bones, makes bones weak and more likely to break. Risk factors for osteoporosis include aging, being female, low body weight, low sex hormones or menopause, smoking, and some medications. Signs and symptoms include back pain, caused by a fractured or collapsed vertebra, loss of height over time, a stooped posture, a bone fracture that occurs much more easily than expected. Prevention and treatment include calcium and vitamin D, exercise, and osteoporosis medications.

REPORT HIGHLIGHTS

Global Markets Direct's Pharmaceutical and Healthcare latest pipeline guide Osteoporosis - Drugs In Development, 2022, provides comprehensive information on the therapeutics under development for Osteoporosis (Metabolic Disorders), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development

history and latest news and press releases.

The Osteoporosis (Metabolic Disorders) pipeline guide also reviews of key players involved in therapeutic development for Osteoporosis and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies/Universities/Institutes, the molecules developed by Companies in Pre-Registration, Phase III, Phase II, Phase I, IND/CTA Filed, Preclinical, Discovery and Unknown stages are 6, 23, 10, 20, 3, 66, 19 and 4 respectively. Similarly, the Universities portfolio in Phase II, Phase I, Preclinical and Discovery stages comprises 1, 1, 13 and 14 molecules, respectively.

Osteoporosis (Metabolic Disorders) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. The guide is built using data and information sourced from Global Markets Direct's proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

Note: Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

SCOPE

The pipeline guide provides a snapshot of the global therapeutic landscape of Osteoporosis (Metabolic Disorders).

The pipeline guide reviews pipeline therapeutics for Osteoporosis (Metabolic Disorders) by companies and universities/research institutes based on information derived from company and industry-specific sources.

The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

The pipeline guide reviews key companies involved in Osteoporosis (Metabolic Disorders) therapeutics and enlists all their major and minor projects.

The pipeline guide evaluates Osteoporosis (Metabolic Disorders) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.

The pipeline guide encapsulates all the dormant and discontinued pipeline projects.

The pipeline guide reviews latest news related to pipeline therapeutics for Osteoporosis (Metabolic Disorders)

REASONS TO BUY

Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.

Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.

Find and recognize significant and varied types of therapeutics under development for Osteoporosis (Metabolic Disorders).

Classify potential new clients or partners in the target demographic.

Develop tactical initiatives by understanding the focus areas of leading companies.

Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.

Formulate corrective measures for pipeline projects by understanding Osteoporosis (Metabolic Disorders) pipeline depth and focus of Indication therapeutics.

Develop and design in-licensing and out-licensing strategies by identifying

prospective partners with the most attractive projects to enhance and expand business potential and scope.

Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.

Featured News & Press Releases

Aug 10, 2022: Rani Therapeutics announces positive topline results from phase 1 study of RT-102 in osteoporosis

Aug 08, 2022: Rani Therapeutics enters into \$45 million loan agreement to support ongoing Ramipril platform advancement and clinical pipeline development

Jul 20, 2022: Alvotech initiates a pharmacokinetic study for AVT03, a proposed biosimilar for Prolia and Xgeva

Jul 20, 2022: Henlius Denosumab Biosimilar HLX14 received clinical trial approval in Australia for the phase 3 MRCT

Jul 18, 2022: Entera Bio announces execution of key regulatory milestones for EB613, the first oral anabolic drug proposed for the treatment of Osteoporosis; Miranda Toledano assumes CEO Position

Jun 17, 2022: Voluntary announcement - First patient has been dosed in an international multicentre phase 3 clinical trial for a biosimilar of denosumab HLX14 (recombinant anti-RANKL human monoclonal antibody injection) for the treatment of postmenopausal osteoporosis in women with high fracture risks in Mainland China

Jun 08, 2022: Radius Health expands Non-US market footprint for TYMLOS

Jun 01, 2022: Radius Health update on Abaloparatide Transdermal System

May 03, 2022: Rani Therapeutics' RaniPill capsule named winner in the Health category of fast company's 2022 World Changing Ideas Awards

Apr 29, 2022: Transcenta doses first subject in Phase I osteoporosis drug trial in China

Apr 01, 2022: Thousands of people set to benefit from first new treatment for osteoporosis for over a decade

Mar 23, 2022: Rani Therapeutics announces initiation of phase 1 study of RT-102 oral PTH for osteoporosis

Mar 10, 2022: Amgen keeps dominating Korea's osteoporosis treatment market

Mar 01, 2022: Radius Health files sNDA for TYMLOS in Men with osteoporosis

Feb 17, 2022: Entera Bio to present at Aegis Virtual Conference on February 23rd
