Osteosarcoma Drugs in Development by Stages, Target, MoA, RoA, Molecule Type and Key Players, 2022 Update

SUMMARY

Global Markets Direct's latest Pharmaceutical and Healthcare disease pipeline guide Osteosarcoma - Drugs In Development, 2022, provides an overview of the Osteosarcoma (Oncology) pipeline landscape.

Osteosarcoma is the most common cancer of the bone that destroys tissue and weakens the bone. It is developed from immature bone cells that normally form new bone tissue. Symptoms include pain, bone fractures, swelling, redness and limitation of motion of joints. Risk factors include age, gender, family history and Li-Fraumeni syndrome. Treatment includes chemotherapy and surgery.

REPORT HIGHLIGHTS

Global Markets Direct's Pharmaceutical and Healthcare latest pipeline guide Osteosarcoma - Drugs In Development, 2022, provides comprehensive information on the therapeutics under development for Osteosarcoma (Oncology), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Osteosarcoma (Oncology) pipeline guide also reviews of key players involved in therapeutic development for Osteosarcoma and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies/Universities/Institutes, the molecules developed by Companies in Phase III, Phase II, Phase I, IND/CTA Filed, Preclinical and Discovery stages are 3, 46, 20, 1, 38 and 8 respectively. Similarly, the Universities portfolio in Phase II, Phase I, Preclinical and Discovery stages comprises 1, 3, 7 and 4 molecules, respectively.

Osteosarcoma (Oncology) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. The guide is built using data and information sourced from Global Markets Direct's proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

Note: Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

SCOPE

The pipeline guide provides a snapshot of the global therapeutic landscape of Osteosarcoma (Oncology).

The pipeline guide reviews pipeline therapeutics for Osteosarcoma (Oncology) by companies and universities/research institutes based on information derived from company and industry-specific sources.

The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

The pipeline guide reviews key companies involved in Osteosarcoma (Oncology) therapeutics and enlists all their major and minor projects.

The pipeline guide evaluates Osteosarcoma (Oncology) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.

The pipeline guide encapsulates all the dormant and discontinued pipeline projects.

The pipeline guide reviews latest news related to pipeline therapeutics for Osteosarcoma (Oncology)

REASONS TO BUY

Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.

Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.

Find and recognize significant and varied types of therapeutics under development for Osteosarcoma (Oncology).

Classify potential new clients or partners in the target demographic.

Develop tactical initiatives by understanding the focus areas of leading companies.

Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.

Formulate corrective measures for pipeline projects by understanding Osteosarcoma (Oncology) pipeline depth and focus of Indication therapeutics.

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.

Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.

Featured News & Press Releases

Apr 11, 2022: Adcendo presents data on uPARAP targeting ADCs in osteosarcoma PDX models at the 2022 AACR Annual Meeting

Jan 27, 2022: OS Therapies announces nationwide open enrollment of remaining 36 to 42 patients in phase IIb trial of OST-HER2 (*Listeria monocytogenes*) in recurrent, resected osteosarcoma

Nov 03, 2021: OS Therapies receives Rare Pediatric Disease Designation (RDD) in osteosarcoma for OST-HER2 (*Listeria monocytogenes*)

Oct 25, 2021: OS Therapies doses first subject in Phase IIb osteosarcoma therapy trial

Jun 23, 2021: Children's Cancer Research Fund supports AOST-2121 PhIIb clinical trial in recurrent, resected osteosarcoma

Apr 26, 2021: Advaxis announces achievement of second milestone under ADXS-HER2 licensing agreement with OS Therapies

Mar 09, 2021: Allarity Therapeutics announces positive data from preclinical study of dovitinib in osteosarcoma

Feb 05, 2021: WPD Pharmaceuticals' licensor announces 100% survival achieved in osteosarcoma lung metastases animal model of annamycin drug

Feb 02, 2021: Moleculin announces 100% survival achieved in osteosarcoma lung

metastases animal model

Jan 26, 2021: OS Therapies receives trial approval from Children's Oncology Group for AOST2121 / OST31-164-01 an open-label Phase 2 study of maintenance therapy with OST31-164 after resection of recurrent osteosarcoma

Jan 19, 2021: Advaxis announces receipt of funding milestone payment under ADXS-HER2 licensing agreement with OS Therapies

Nov 23, 2020: Hillstream BioPharma's HSB-888 receives rare pediatric disease designation and orphan drug designation for osteosarcoma

Nov 19, 2020: Eisai to present new investigational data on LENVIMA (lenvatinib) in thyroid cancer and osteosarcoma at ESMO Asia 2020

Sep 24, 2020: Innova Therapeutics receives Rare Pediatric Disease Designation from the Food and Drug Administration (FDA) for IVT-8086 for the treatment of Osteosarcoma

Sep 11, 2020: Eisai to present abstracts on lenvatinib mesylate at ESMO Virtual Congress 2020
