## Abstracts

Placenta Growth Factor - Pipeline Review, H1 2020

### SUMMARY

Placenta Growth Factor (Vascular Endothelial Growth Factor Related Protein or PGF) pipeline Target constitutes close to 21 molecules. The latest report Placenta Growth Factor - Pipeline Review, H1 2020, outlays comprehensive information on the Placenta Growth Factor (Vascular Endothelial Growth Factor Related Protein or PGF) targeted therapeutics, complete with analysis by indications, stage of development, mechanism of action (MoA), route of administration (RoA) and molecule type.

Placenta Growth Factor (Vascular Endothelial Growth Factor Related Protein or PGF) - Placental growth factor is a protein encoded by the PGF gene. Placental growth factor (PGF) is a member of the VEGF (vascular endothelial growth factor). It plays an important role in angiogenesis and endothelial cell growth, stimulating their proliferation and migration. It binds to the receptor FLT1/VEGFR-1. PGF is also expressed in many other tissues, including the villous trophoblast. The molecules developed by companies in Phase III, Phase I, Preclinical and Discovery stages are 6, 6, 4 and 5 respectively.

Report covers products from therapy areas Ophthalmology, Metabolic Disorders and Oncology which include indications Wet (Neovascular/Exudative) Macular Degeneration, Diabetic Macular Edema, Diabetic Retinopathy, Macular Edema, Central Retinal Vein Occlusion, Choroidal Neovascularization, Age Related Macular Degeneration, Branch Retinal Vein Occlusion, Corneal Neovascularization, Metastatic Colorectal Cancer, Myopia, Non-Proliferative Diabetic Retinopathy (NPDR), Optic Neuropathy, Retinal Vein Occlusion, Retinopathy, Retinopathy Of Prematurity and Uveal Melanoma.

Furthermore, this report also reviews key players involved in Placenta Growth Factor (Vascular Endothelial Growth Factor Related Protein or PGF) targeted therapeutics development with respective active and dormant or discontinued projects. Driven by data and information sourced from proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources.

**Note:** Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

## SCOPE

The report provides a snapshot of the global therapeutic landscape for Placenta Growth Factor (Vascular Endothelial Growth Factor Related Protein or PGF)

The report reviews Placenta Growth Factor (Vascular Endothelial Growth Factor Related Protein or PGF) targeted therapeutics under development by companies and universities/research institutes based on information derived from company and industry-specific sources

The report covers pipeline products based on various stages of development ranging from pre-registration till discovery and undisclosed stages

The report features descriptive drug profiles for the pipeline products which includes, product description, descriptive MoA, R&D brief, licensing and collaboration details & other developmental activities

The report reviews key players involved in Placenta Growth Factor (Vascular Endothelial Growth Factor Related Protein or PGF) targeted therapeutics and enlists all their major and minor projects

The report assesses Placenta Growth Factor (Vascular Endothelial Growth Factor Related Protein or PGF) targeted therapeutics based on mechanism of action (MoA), route of administration (RoA) and molecule type

The report summarizes all the dormant and discontinued pipeline projects

The report reviews latest news and deals related to Placenta Growth Factor

(Vascular Endothelial Growth Factor Related Protein or PGF) targeted therapeutics

## REASONS TO BUY

Gain strategically significant competitor information, analysis, and insights to formulate effective R&D strategies

Identify emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage

Identify and understand the targeted therapy areas and indications for Placenta Growth Factor (Vascular Endothelial Growth Factor Related Protein or PGF)

Identify the use of drugs for target identification and drug repurposing

Identify potential new clients or partners in the target demographic

Develop strategic initiatives by understanding the focus areas of leading companies

Plan mergers and acquisitions effectively by identifying key players and it's most promising pipeline therapeutics

Devise corrective measures for pipeline projects by understanding Placenta Growth Factor (Vascular Endothelial Growth Factor Related Protein or PGF) development landscape

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope

## Contents

Introduction

Global Markets Direct Report Coverage

Placenta Growth Factor (Vascular Endothelial Growth Factor Related Protein or PGF) -  
Overview

Placenta Growth Factor (Vascular Endothelial Growth Factor Related Protein or PGF) -  
Therapeutics Development

Products under Development by Stage of Development

Products under Development by Therapy Area

Products under Development by Indication

Products under Development by Companies

Placenta Growth Factor (Vascular Endothelial Growth Factor Related Protein or PGF) -  
Therapeutics Assessment

Assessment by Mechanism of Action

Assessment by Route of Administration

Assessment by Molecule Type

Placenta Growth Factor (Vascular Endothelial Growth Factor Related Protein or PGF) -  
Companies Involved in Therapeutics Development

Alteogen Inc

Amgen Inc

Chengdu Kanghong Pharmaceuticals Group Co Ltd

Cinnagen Co

Clover Biopharmaceuticals

Coherus BioSciences Inc

Formycon AG

Gene Techno Science Co Ltd

Huons Global Co Ltd

i2 Pharmaceuticals Inc

Lupin Ltd

Luye Pharma Group Ltd

Momenta Pharmaceuticals Inc

PharmAbcine Inc

Regeneron Pharmaceuticals Inc

Samsung Bioepis Co Ltd
