Sphingosine 1-Phosphate Receptor 1 (Endothelial Differentiation G Protein Coupled Receptor 1 or Sphingosine 1 Phosphate Receptor Edg 1 or CD363 or S1PR1) - Pipeline Review, H1 2018

SUMMARY

According to the recently published report 'Sphingosine 1-Phosphate Receptor 1 - Pipeline Review, H1 2018'; Sphingosine 1-Phosphate Receptor 1 (Endothelial Differentiation G Protein Coupled Receptor 1 or Sphingosine 1 Phosphate Receptor Edg 1 or CD363 or S1PR1) pipeline Target constitutes close to 20 molecules. Out of which approximately 20 molecules are developed by Companies.

Sphingosine 1-Phosphate Receptor 1 (Endothelial Differentiation G Protein Coupled Receptor 1 or Sphingosine 1 Phosphate Receptor Edg 1 or CD363 or S1PR1) - Sphingosine-1-phosphate receptor 1 (S1P receptor 1 or S1P1) is a G-protein coupled receptor. Signaling leads to the activation of RAC1, SRC, PTK2/FAK1 and MAP kinases. It plays an important role in cell migration, migration of osteoclast precursor cells, the regulation of bone mineralization and bone homeostasis and in the protection against ventilator-induced lung injury.

It is required for normal chemotaxis toward sphingosine 1-phosphate, normal embryonic heart development and normal cardiac morphogenesis. It inhibits sprouting angiogenesis to prevent excessive sprouting during blood vessel development.

The report 'Sphingosine 1-Phosphate Receptor 1 - Pipeline Review, H1 2018' outlays comprehensive information on the Sphingosine 1-Phosphate Receptor 1 (Endothelial Differentiation G Protein Coupled Receptor 1 or Sphingosine 1 Phosphate Receptor Edg 1 or CD363 or S1PR1) targeted therapeutics, complete with analysis by indications, stage of development, mechanism of action (MoA), route of administration (RoA) and molecule type; that are being developed by Companies/Universities.

It also reviews key players involved in Sphingosine 1-Phosphate Receptor 1 (Endothelial Differentiation G Protein Coupled Receptor 1 or Sphingosine 1 Phosphate Receptor Edg 1 or CD363 or S1PR1) targeted therapeutics development with respective active and dormant or discontinued projects. Currently, The molecules developed by companies in Pre-Registration, Phase III, Phase II, Phase I, Preclinical and Discovery stages are 1, 2, 3, 5, 8 and 1 respectively. Report covers products from therapy areas Immunology, Central Nervous System, Gastrointestinal, Cardiovascular, Dermatology, Musculoskeletal Disorders and Oncology which include indications Multiple Sclerosis, Ulcerative Colitis, Autoimmune Disorders, Rheumatoid Arthritis, Psoriasis, Relapsing Remitting Multiple Sclerosis (RRMS), Secondary Progressive Multiple Sclerosis (SPMS), Arthritis, Atopic Dermatitis, Cardiovascular Disease, Cerebral Aneurysms, Colitis, Crohn's Disease (Regional Enteritis), Dermatological Disorders, Dermatomyositis, Graft Versus Host Disease (GVHD), Inflammation, Inflammatory Bowel Disease, Kidney Transplant Rejection, Primary Biliary Cirrhosis, Relapsing Multiple Sclerosis (RMS), Stroke and Systemic Lupus Erythematosus.

Note: Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

SCOPE

The report provides a snapshot of the global therapeutic landscape for Sphingosine 1-Phosphate Receptor 1 (Endothelial Differentiation G Protein Coupled Receptor 1 or Sphingosine 1 Phosphate Receptor Edg 1 or CD363 or S1PR1)

The report reviews Sphingosine 1-Phosphate Receptor 1 (Endothelial Differentiation G Protein Coupled Receptor 1 or Sphingosine 1 Phosphate Receptor Edg 1 or CD363 or S1PR1) targeted therapeutics under development by companies and universities/research institutes based on information derived from company and industry-specific sources

The report covers pipeline products based on various stages of development ranging from pre-registration till discovery and undisclosed stages

The report features descriptive drug profiles for the pipeline products which includes, product description, descriptive MoA, R&D brief, licensing and collaboration details & other developmental activities

The report reviews key players involved in Sphingosine 1-Phosphate Receptor 1 (Endothelial Differentiation G Protein Coupled Receptor 1 or Sphingosine 1 Phosphate Receptor Edg 1 or CD363 or S1PR1) targeted therapeutics and enlists all their major and minor projects

The report assesses Sphingosine 1-Phosphate Receptor 1 (Endothelial Differentiation G Protein Coupled Receptor 1 or Sphingosine 1 Phosphate Receptor Edg 1 or CD363 or S1PR1) targeted therapeutics based on mechanism of action (MoA), route of administration (RoA) and molecule type

The report summarizes all the dormant and discontinued pipeline projects

The report reviews latest news and deals related to Sphingosine 1-Phosphate Receptor 1 (Endothelial Differentiation G Protein Coupled Receptor 1 or Sphingosine 1 Phosphate Receptor Edg 1 or CD363 or S1PR1) targeted therapeutics

REASONS TO BUY

Gain strategically significant competitor information, analysis, and insights to formulate effective R&D strategies

Identify emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage

Identify and understand the targeted therapy areas and indications for Sphingosine 1-Phosphate Receptor 1 (Endothelial Differentiation G Protein Coupled Receptor 1 or Sphingosine 1 Phosphate Receptor Edg 1 or CD363 or S1PR1)

Identify the use of drugs for target identification and drug repurposing

Identify potential new clients or partners in the target demographic

Develop strategic initiatives by understanding the focus areas of leading companies

Plan mergers and acquisitions effectively by identifying key players and it's most promising pipeline therapeutics

Devise corrective measures for pipeline projects by understanding Sphingosine 1-Phosphate Receptor 1 (Endothelial Differentiation G Protein Coupled Receptor 1 or Sphingosine 1 Phosphate Receptor Edg 1 or CD363 or S1PR1) development landscape

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope
