Abstracts

T Lymphocyte Activation Antigen CD86 (Activation B7-2 Antigen or CTLA 4 Counter Receptor B7.2 or CD86) - Pipeline Review, H2 2017

SUMMARY

T Lymphocyte Activation Antigen CD86 (Activation B7-2 Antigen or CTLA 4 Counter Receptor B7.2 or CD86) pipeline Target constitutes close to 5 molecules. Out of which approximately 5 molecules are developed by Companies. The latest report T Lymphocyte Activation Antigen CD86 - Pipeline Review, H2 2017, outlays comprehensive information on the T Lymphocyte Activation Antigen CD86 (Activation B7-2 Antigen or CTLA 4 Counter Receptor B7.2 or CD86) targeted therapeutics, complete with analysis by indications, stage of development, mechanism of action (MoA), route of administration (RoA) and molecule type.

T Lymphocyte Activation Antigen CD86 (Activation B7-2 Antigen or CTLA 4 Counter Receptor B7.2 or CD86) - Cluster of Differentiation 86 or CD86 or B7-2 is a protein expressed on antigen-presenting cells. It plays a critical role in the early events of T-cell activation and costimulation of naive T-cells, such as deciding between immunity and anergy. The molecules developed by companies in Pre-Registration and Preclinical stages are 2 and 3 respectively. Report covers products from therapy areas Immunology, Dermatology, Genito Urinary System And Sex Hormones, Musculoskeletal Disorders, Ophthalmology and Respiratory which include indications Rheumatoid Arthritis, Alopecia, Autoimmune Disorders, Dermatomyositis, Focal Segmental Glomerulosclerosis (FSGS), Graft Versus Host Disease (GVHD), Granulomatosis with Polyangiitis (Wegener Polyangiitis), Interstitial Lung Diseases (Diffuse Parenchymal

Lung Disease), Lupus Nephritis, Myasthenia Gravis, Nephrotic Syndrome, Polyarticular Juvenile Idiopathic Arthritis (PJIA), Polymyositis/Idiopathic Inflammatory Myopathy, Sarcoidosis, Sicca Syndrome (Sjogren), Systemic Lupus Erythematosus, Systemic Sclerosis (Scleroderma), Transplant Rejection, Uveitis and Vitiligo.

Furthermore, this report also reviews key players involved in T Lymphocyte Activation Antigen CD86 (Activation B7-2 Antigen or CTLA 4 Counter Receptor B7.2 or CD86) targeted therapeutics development with respective active and dormant or discontinued projects. Driven by data and information sourced from proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources.

Note: Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

SCOPE

The report provides a snapshot of the global therapeutic landscape for T Lymphocyte Activation Antigen CD86 (Activation B7-2 Antigen or CTLA 4 Counter Receptor B7.2 or CD86)

The report reviews T Lymphocyte Activation Antigen CD86 (Activation B7-2 Antigen or CTLA 4 Counter Receptor B7.2 or CD86) targeted therapeutics under development by companies and universities/research institutes based on information derived from company and industry-specific sources

The report covers pipeline products based on various stages of development ranging from pre-registration till discovery and undisclosed stages

The report features descriptive drug profiles for the pipeline products which includes, product description, descriptive MoA, R&D brief, licensing and collaboration details & other developmental activities

The report reviews key players involved in T Lymphocyte Activation Antigen CD86 (Activation B7-2 Antigen or CTLA 4 Counter Receptor B7.2 or CD86) targeted therapeutics and enlists all their major and minor projects

The report assesses T Lymphocyte Activation Antigen CD86 (Activation B7-2

Antigen or CTLA 4 Counter Receptor B7.2 or CD86) targeted therapeutics based on mechanism of action (MoA), route of administration (RoA) and molecule type

The report summarizes all the dormant and discontinued pipeline projects

The report reviews latest news and deals related to T Lymphocyte Activation Antigen CD86 (Activation B7-2 Antigen or CTLA 4 Counter Receptor B7.2 or CD86) targeted therapeutics

REASONS TO BUY

Gain strategically significant competitor information, analysis, and insights to formulate effective R&D strategies

Identify emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage

Identify and understand the targeted therapy areas and indications for T Lymphocyte Activation Antigen CD86 (Activation B7-2 Antigen or CTLA 4 Counter Receptor B7.2 or CD86)

Identify the use of drugs for target identification and drug repurposing

Identify potential new clients or partners in the target demographic

Develop strategic initiatives by understanding the focus areas of leading companies

Plan mergers and acquisitions effectively by identifying key players and it's most promising pipeline therapeutics

Devise corrective measures for pipeline projects by understanding T Lymphocyte Activation Antigen CD86 (Activation B7-2 Antigen or CTLA 4 Counter Receptor B7.2 or CD86) development landscape

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand

business potential and scope

Contents

Introduction

Global Markets Direct Report Coverage

T Lymphocyte Activation Antigen CD86 (Activation B7-2 Antigen or CTLA 4 Counter Receptor B7.2 or CD86) - Overview

T Lymphocyte Activation Antigen CD86 (Activation B7-2 Antigen or CTLA 4 Counter Receptor B7.2 or CD86) - Therapeutics Development

Products under Development by Stage of Development

Products under Development by Therapy Area

Products under Development by Indication

Products under Development by Companies

T Lymphocyte Activation Antigen CD86 (Activation B7-2 Antigen or CTLA 4 Counter Receptor B7.2 or CD86) - Therapeutics Assessment

Assessment by Mechanism of Action

Assessment by Route of Administration

Assessment by Molecule Type

T Lymphocyte Activation Antigen CD86 (Activation B7-2 Antigen or CTLA 4 Counter Receptor B7.2 or CD86) - Companies Involved in Therapeutics Development
