## **Abstracts**

Toxoplasmosis Drugs in Development by Stages, Target, MoA, RoA, Molecule Type and Key Players, 2022 Update

### **SUMMARY**

Global Markets Direct's latest Pharmaceutical and Healthcare disease pipeline guide Toxoplasmosis - Drugs In Development, 2022, provides an overview of the Toxoplasmosis (Infectious Disease) pipeline landscape.

Toxoplasmosis is a disease that results from infection with the *Toxoplasma gondii* parasite. Symptoms include body aches, swollen lymph nodes, headache, fever and fatigue. Risk factors include HIV/AIDS, chemotherapy and immunosuppressant drugs. Treatment includes an antimalarial drug and antibiotics.

### **REPORT HIGHLIGHTS**

Global Markets Direct's Pharmaceutical and Healthcare latest pipeline guide Toxoplasmosis - Drugs In Development, 2022, provides comprehensive information on the therapeutics under development for Toxoplasmosis (Infectious Disease), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Toxoplasmosis (Infectious Disease) pipeline guide also reviews of key players

involved in therapeutic development for Toxoplasmosis and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies/Universities/Institutes, the molecules developed by Companies in Phase I, Preclinical and Discovery stages are 1, 3 and 1 respectively. Similarly, the Universities portfolio in Preclinical and Discovery stages comprises 2 and 2 molecules, respectively.

Toxoplasmosis (Infectious Disease) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. The guide is built using data and information sourced from Global Markets Direct's proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

**Note:** Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

## SCOPE

The pipeline guide provides a snapshot of the global therapeutic landscape of Toxoplasmosis (Infectious Disease).

The pipeline guide reviews pipeline therapeutics for Toxoplasmosis (Infectious Disease) by companies and universities/research institutes based on information derived from company and industry-specific sources.

The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

The pipeline guide reviews key companies involved in Toxoplasmosis (Infectious Disease) therapeutics and enlists all their major and minor projects.

The pipeline guide evaluates Toxoplasmosis (Infectious Disease) therapeutics

based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.

The pipeline guide encapsulates all the dormant and discontinued pipeline projects.

The pipeline guide reviews latest news related to pipeline therapeutics for Toxoplasmosis (Infectious Disease)

## **REASONS TO BUY**

Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.

Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.

Find and recognize significant and varied types of therapeutics under development for Toxoplasmosis (Infectious Disease).

Classify potential new clients or partners in the target demographic.

Develop tactical initiatives by understanding the focus areas of leading companies.

Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.

Formulate corrective measures for pipeline projects by understanding Toxoplasmosis (Infectious Disease) pipeline depth and focus of Indication therapeutics.

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.

Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.

## Contents

Introduction
Global Markets Direct Report Coverage
Toxoplasmosis - Overview
Toxoplasmosis - Therapeutics Development
Pipeline Overview
Pipeline by Companies
Pipeline by Universities/Institutes
Products under Development by Companies
Products under Development by Universities/Institutes
Toxoplasmosis - Therapeutics Assessment
Assessment by Target
Assessment by Mechanism of Action
Assessment by Route of Administration
Assessment by Molecule Type
Toxoplasmosis - Companies Involved in Therapeutics Development
AbbVie Inc
GSK plc
PGTx Ltd
Tiba Biotech LLC
Vaxinano SE
Toxoplasmosis - Drug Profiles
Monoclonal Antibodies for Ocular Toxoplasmosis - Drug Profile
Product Description
Mechanism Of Action
pyrimethamine - Drug Profile
Product Description
Mechanism Of Action
Recombinant Vector Vaccine for Protozoal Infection - Drug Profile
Product Description
Mechanism Of Action
Small Molecules for Toxoplasmosis - Drug Profile
Product Description
