Abstracts

Tumor Necrosis Factor Receptor Superfamily Member 18 (Glucocorticoid Induced Tumor Necrosis Factor Receptor or Activation Inducible TNFR Family Receptor or Glucocorticoid Induced TNFR Related Protein or CD357 or TNFRSF18) - Pipeline Review, H2 2018

SUMMARY

Tumor Necrosis Factor Receptor Superfamily Member 18 (Glucocorticoid Induced Tumor Necrosis Factor Receptor or Activation Inducible TNFR Family Receptor or Glucocorticoid Induced TNFR Related Protein or CD357 or TNFRSF18) pipeline Target constitutes close to 14 molecules. The latest report Tumor Necrosis Factor Receptor Superfamily Member 18 - Pipeline Review, H2 2018, outlays comprehensive information on the Tumor Necrosis Factor Receptor Superfamily Member 18 (Glucocorticoid Induced Tumor Necrosis Factor Receptor or Activation Inducible TNFR Family Receptor or Glucocorticoid Induced TNFR Related Protein or CD357 or TNFRSF18) targeted therapeutics, complete with analysis by indications, stage of development, mechanism of action (MoA), route of administration (RoA) and molecule type.

Tumor Necrosis Factor Receptor Superfamily Member 18 (Glucocorticoid Induced Tumor Necrosis Factor Receptor or Activation Inducible TNFR Family Receptor or

Glucocorticoid Induced TNFR Related Protein or CD357 or TNFRSF18) - Glucocorticoid induced tumor necrosis factor receptor or TNFRSF18 or AITR is a protein encoded by TNFRSF18 gene. TNFRSF18 is involved in interactions between activated T-lymphocytes and endothelial cells and in the regulation of T-cell receptor-mediated cell death. It mediated NF-kappa-B activation via the TRAF2/NIK pathway.

The molecules developed by companies in Phase II, Phase I, Preclinical and Discovery stages are 3, 5, 4 and 2 respectively. Report covers products from therapy areas Oncology which include indications Solid Tumor, Melanoma, Non-Small Cell Lung Cancer, Adenocarcinoma Of The Gastro esophageal Junction, Blood Cancer, Endometrial Cancer, Esophageal Cancer, Gastric Cancer, Head And Neck Cancer Squamous Cell Carcinoma, Hepatocellular Carcinoma, Lymphoma, Metastatic Melanoma, Metastatic Renal Cell Carcinoma and Transitional Cell Carcinoma (Urothelial Cell Carcinoma).

Furthermore, this report also reviews key players involved in Tumor Necrosis Factor Receptor Superfamily Member 18 (Glucocorticoid Induced Tumor Necrosis Factor Receptor or Activation Inducible TNFR Family Receptor or Glucocorticoid Induced TNFR Related Protein or CD357 or TNFRSF18) targeted therapeutics development with respective active and dormant or discontinued projects. Driven by data and information sourced from proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources.

Note: Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

SCOPE

The report provides a snapshot of the global therapeutic landscape for Tumor Necrosis Factor Receptor Superfamily Member 18 (Glucocorticoid Induced Tumor Necrosis Factor Receptor or Activation Inducible TNFR Family Receptor or Glucocorticoid Induced TNFR Related Protein or CD357 or TNFRSF18)

The report reviews Tumor Necrosis Factor Receptor Superfamily Member 18 (Glucocorticoid Induced Tumor Necrosis Factor Receptor or Activation Inducible TNFR Family Receptor or Glucocorticoid Induced TNFR Related Protein or CD357 or TNFRSF18) targeted therapeutics under development by companies and universities/research institutes based on information derived from company

and industry-specific sources

The report covers pipeline products based on various stages of development ranging from pre-registration till discovery and undisclosed stages

The report features descriptive drug profiles for the pipeline products which includes, product description, descriptive MoA, R&D brief, licensing and collaboration details & other developmental activities

The report reviews key players involved in Tumor Necrosis Factor Receptor Superfamily Member 18 (Glucocorticoid Induced Tumor Necrosis Factor Receptor or Activation Inducible TNFR Family Receptor or Glucocorticoid Induced TNFR Related Protein or CD357 or TNFRSF18) targeted therapeutics and enlists all their major and minor projects

The report assesses Tumor Necrosis Factor Receptor Superfamily Member 18 (Glucocorticoid Induced Tumor Necrosis Factor Receptor or Activation Inducible TNFR Family Receptor or Glucocorticoid Induced TNFR Related Protein or CD357 or TNFRSF18) targeted therapeutics based on mechanism of action (MoA), route of administration (RoA) and molecule type

The report summarizes all the dormant and discontinued pipeline projects

The report reviews latest news and deals related to Tumor Necrosis Factor Receptor Superfamily Member 18 (Glucocorticoid Induced Tumor Necrosis Factor Receptor or Activation Inducible TNFR Family Receptor or Glucocorticoid Induced TNFR Related Protein or CD357 or TNFRSF18) targeted therapeutics

REASONS TO BUY

Gain strategically significant competitor information, analysis, and insights to formulate effective R&D strategies

Identify emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage

Identify and understand the targeted therapy areas and indications for Tumor Necrosis Factor Receptor Superfamily Member 18 (Glucocorticoid Induced

Tumor Necrosis Factor Receptor or Activation Inducible TNFR Family Receptor or Glucocorticoid Induced TNFR Related Protein or CD357 or TNFRSF18)

Identify the use of drugs for target identification and drug repurposing

Identify potential new clients or partners in the target demographic

Develop strategic initiatives by understanding the focus areas of leading companies

Plan mergers and acquisitions effectively by identifying key players and it's most promising pipeline therapeutics

Devise corrective measures for pipeline projects by understanding Tumor Necrosis Factor Receptor Superfamily Member 18 (Glucocorticoid Induced Tumor Necrosis Factor Receptor or Activation Inducible TNFR Family Receptor or Glucocorticoid Induced TNFR Related Protein or CD357 or TNFRSF18) development landscape

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope
