Abstracts

Vascular Endothelial Growth Factor B (VEGF Related Factor or VEGFB) - Pipeline Review, H1 2018

SUMMARY

Vascular Endothelial Growth Factor B (VEGF Related Factor or VEGFB) - Vascular endothelial growth factor B also known as VEGF-B is a protein encoded by the VEGF-B gene. It regulates the formation of blood vessels and is involved in endothelial cell physiology. It is a ligand for VEGFR-1 (vascular endothelial growth factor receptor 1) and NRP-1 (neuropilin-1).

Vascular Endothelial Growth Factor B (VEGF Related Factor or VEGFB) pipeline Target constitutes close to 8 molecules. The molecules developed by companies in Pre-Registration, Phase II, Phase I and Preclinical stages are 1, 1, 1 and 5 respectively. Report covers products from therapy areas Metabolic Disorders, Ophthalmology and Oncology which include indications Wet (Neovascular/Exudative) Macular Degeneration, Diabetic Macular Edema, Diabetic Nephropathy, Diabetic Retinopathy, Choroidal Neovascularization, Lipid Disorders, Neovascular Glaucoma, Non-Proliferative Diabetic Retinopathy (NPDR), Optic Neuropathy, Retinal Vein Occlusion and Retinopathy.

The latest report Vascular Endothelial Growth Factor B - Pipeline Review, H1 2018, outlays comprehensive information on the Vascular Endothelial Growth Factor B (VEGF Related Factor or VEGFB) targeted therapeutics, complete with analysis by indications, stage of development, mechanism of action (MoA), route of administration (RoA) and molecule type.

It also reviews key players involved in Vascular Endothelial Growth Factor B (VEGF Related Factor or VEGFB) targeted therapeutics development with respective active and dormant or discontinued projects.

The report is built using data and information sourced from proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources.

Note: Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

SCOPE

The report provides a snapshot of the global therapeutic landscape for Vascular Endothelial Growth Factor B (VEGF Related Factor or VEGFB)

The report reviews Vascular Endothelial Growth Factor B (VEGF Related Factor or VEGFB) targeted therapeutics under development by companies and universities/research institutes based on information derived from company and industry-specific sources

The report covers pipeline products based on various stages of development ranging from pre-registration till discovery and undisclosed stages

The report features descriptive drug profiles for the pipeline products which includes, product description, descriptive MoA, R&D brief, licensing and collaboration details & other developmental activities

The report reviews key players involved in Vascular Endothelial Growth Factor B (VEGF Related Factor or VEGFB) targeted therapeutics and enlists all their major and minor projects

The report assesses Vascular Endothelial Growth Factor B (VEGF Related Factor or VEGFB) targeted therapeutics based on mechanism of action (MoA), route of administration (RoA) and molecule type

The report summarizes all the dormant and discontinued pipeline projects

The report reviews latest news and deals related to Vascular Endothelial Growth Factor B (VEGF Related Factor or VEGFB) targeted therapeutics

REASONS TO BUY

Gain strategically significant competitor information, analysis, and insights to formulate effective R&D strategies

Identify emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage

Identify and understand the targeted therapy areas and indications for Vascular Endothelial Growth Factor B (VEGF Related Factor or VEGFB)

Identify the use of drugs for target identification and drug repurposing

Identify potential new clients or partners in the target demographic

Develop strategic initiatives by understanding the focus areas of leading companies

Plan mergers and acquisitions effectively by identifying key players and it's most promising pipeline therapeutics

Devise corrective measures for pipeline projects by understanding Vascular Endothelial Growth Factor B (VEGF Related Factor or VEGFB) development landscape

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope

Contents

Introduction

Global Markets Direct Report Coverage

Vascular Endothelial Growth Factor B (VEGF Related Factor or VEGFB) - Overview

Vascular Endothelial Growth Factor B (VEGF Related Factor or VEGFB) - Therapeutics
