The reports help answer the following questions:

What is the current size of the crane and lifting frame market in the world and in different countries?

How is the crane and lifting frame market divided into different product segments?

How are the overall market and different product segments growing?

How is the market predicted to develop in the future?

What is the market potential compared to other countries?

The latest industry data included in the reports:

Overall crane and lifting frame market size, 2009-2020

Crane and lifting frame market size by product segment, 2009-2020

Growth rates of the overall crane and lifting frame market and different product segments, 2009-2020

Shares of different product segments of the overall crane and lifting frame market, 2009, 2015 and 2020

Market Potential Rates of the overall crane and lifting frame market and different product segments

The market data is given for the following product segments:

- Bridge and transporter cranes
- Cranes for mounting on road vehicles
- Overhead travelling cranes on fixed support
- Pedestal and portal jib cranes
- Straddle carriers and mobile lifting frames on tyres
- Tower cranes
- Self-propelled lifting frames and cranes on tyres
- Other self-propelled lifting frames and cranes
- Other cranes and lifting frames

Among the key reasons to purchase include the following:

- Gain an outlook of the historic development, current market situation, and future outlook of the crane and lifting frame market in the world to 2020
- Track industry developments and identify market opportunities
- Plan and develop marketing, market-entry, market expansion, and other business strategies by identifying the key market opportunities and prospects
- Save time and money with the readily accessible key market data included in the reports. The data is clearly presented and can be easily incorporated into presentations and internal reports.
