Abstracts

The report package Domestic Heating and Ventilation Appliance Markets in Eastern Europe to 2021 offers the most up-to-date industry data on the actual market situation, and future outlook for domestic heating and ventilation appliances in different Eastern European countries. The package includes country reports from the following countries:

Armenia, Azerbaijan, Bosnia Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Estonia, Georgia, Greece, Hungary, Latvia, Lithuania, Macedonia, Malta, Moldova, Montenegro, Poland, Romania, Russia, Slovakia, Slovenia, Turkey, Ukraine

The research includes historical data from 2010 to 2016 and forecasts until 2021 which makes the reports an invaluable resource for industry executives, marketing, sales and product managers, consultants, analysts, and other people looking for key industry data in readily accessible documents with clearly presented tables and graphs.

The reports help answer the following questions:

What is the current size of the domestic heating and ventilation appliance market in different Eastern European countries?

How is the market split into different types of domestic heating and ventilation appliances?

How are the overall market and different product types growing?

How is the market predicted to develop in the future?

The latest industry data included in the reports:

Demand for domestic heating and ventilation appliances, 2010-2021

Domestic heating and ventilation appliance market size by product type, 2010-2021

Growth rates of the overall market and different product segments, 2010-2021

Shares of different product segments of the overall market, 2010, 2016, and 2021

The market data is given for the following product segments:

Non-electric air heaters with fans

Electric fans (125 watts)

Electric fans (125 watts)

Ventilating/recycling hoods

Electric storage heating radiators

Other electric space and soil heating equipment

Among the key reasons to purchase include the following:

Gain an outlook of the historical development, current market situation, and future outlook of the domestic heating and ventilation appliance market in different Eastern European countries to 2021

Track industry developments and identify market opportunities

Plan and develop marketing, market-entry, market expansion, and other business strategies by identifying the key market opportunities and prospects

Save time and money with the readily accessible key market data included in the reports. The data is clearly presented and can be easily incorporated into presentations and internal reports.
