Abstracts

This industry report offers the most up-to-date market data on the actual market situation, trends and future outlook for electricity control and distribution equipment in Latvia. The research includes historic market data from 2011 to 2017 and forecasts until 2022 which makes the report an invaluable resource for industry executives, marketing, sales and product managers, analysts, and other people looking for key industry data in readily accessible and clearly presented tables and graphs.

The latest market data for this research include:

Overall electricity control and distribution equipment market size, 2011-2022

Electricity control and distribution equipment market size by product segment, 2011-2022

Growth rates of the overall electricity control and distribution equipment market and different product segments, 2011-2022

Shares of different product segments of the overall electricity control and distribution equipment market, 2011, 2017 and 2022

The product segments discussed in this data report include:

Electrical relays (voltage Electrical relays (voltage 60 - 1,000 volts)

Electrical fuses (voltage Electrical fuses (voltage > 1 kV)

Automatic circuit breakers (voltage 1 - 72.5 kV)
Automatic circuit breakers (voltage > 72.5 kV)
Electrical distribution and control boards (voltage > 1kV)
Not equipped electrical panels and boards
Isolating and make-and-break switches (voltage > 1 kV)
Lightning arresters and voltage/surge limiters (voltage > 1kV)
Electrical lamp-holders (voltage > 1kV)
Electrical sockets and plugs
Other electricity control and distribution equipment

The report helps answering the following questions:

What is the current size of the electricity control and distribution equipment market in Latvia?

How is the electricity control and distribution equipment market divided into different product segments?

How are the overall market and different product segments growing?

How is the market predicted to develop in the future?

Among the key reasons to purchase include the following:

Gain an outlook of the historic development, current market situation, trends, and future outlook of the electricity control and distribution equipment market in Latvia to 2022

Track industry trends and identify market opportunities

Plan and develop marketing, market-entry, market expansion, and other business strategies by identifying the key market trends and prospects

Save time and money with the readily accessible key market data included in the report. The market data is clearly presented and can be easily incorporated into presentations, internal reports, etc.

Contents

1. MARKET FOR ELECTRICITY CONTROL AND DISTRIBUTION EQUIPMENT IN LATVIA

Overall Market

Market by Type

Electrical relays (voltage 60 - 1,000 volts)

Electrical fuses (voltage > 1 kV)

Automatic circuit breakers (voltage 1 - 72.5 kV)

Automatic circuit breakers (voltage > 72.5 kV)

Electrical distribution and control boards (voltage > 1kV)

Not equipped electrical panels and boards

Isolating and make-and-break switches (voltage > 1 kV)

Lightning arresters and voltage/surge limiters (voltage > 1kV)

Electrical lamp-holders (voltage > 1kV)

Electrical sockets and plugs
Other electricity control and distribution equipment

2. FORECASTS AND FUTURE OUTLOOK

Overall Market

Market by Type

Electrical relays (voltage 60 - 1,000 volts)

Electrical fuses (voltage > 1 kV)

Automatic circuit breakers (voltage 1 - 72.5 kV)

Automatic circuit breakers (voltage > 72.5 kV)

Electrical distribution and control boards (voltage > 1kV)

Not equipped electrical panels and boards

Isolating and make-and-break switches (voltage > 1 kV)

Lightning arresters and voltage/surge limiters (voltage > 1kV)

Electrical lamp-holders (voltage > 1kV)

Electrical sockets and plugs
Other electricity control and distribution equipment

3. MARKET DEFINITION

4. METHODOLOGY AND SOURCES

5. ABOUT GLOBAL RESEARCH & DATA SERVICES
