Abstracts

The report Electronic Component Market in Norway to 2020 - Market Size, Development, and Forecasts offers the most up-to-date industry data on the actual market situation, and future outlook for electronic components in Norway. The research includes historic data from 2009 to 2015 and forecasts until 2020 which makes the report an invaluable resource for industry executives, marketing, sales and product managers, consultants, analysts, and other people looking for key industry data in a readily accessible document with clearly presented tables and graphs.

The report helps answer the following questions:

What is the current size of the electronic component market in Norway?

How is the electronic component market divided into different types of product segments?

How are the overall market and different product segments growing?

How is the market predicted to develop in the future?

What is the market potential compared to other countries?

The latest industry data included in this report:

Overall electronic component market size, 2009-2020

Electronic component market size by product segment, 2009-2020

Growth rates of the overall market and different product segments, 2009-2020

Shares of different product segments of the overall market, 2009, 2015, and 2020

Market potential rates of the overall market and different product segments

The market data is given for the following product segments:

Electrical capacitors

Electrical resistors

Semiconductor devices

Electronic integrated circuits and microassemblies

Thermionic and cold cathode tubes and valves

Cards incorporating a magnetic stripe

Mounted piezo-electric crystals

Electronic printed circuits

Other electronic components

Among the key reasons to purchase include the following:

Gain an outlook of the historic development, current market situation, and future outlook of the electronic component market in Norway to 2020

Track industry developments and identify market opportunities

Plan and develop marketing, market-entry, market expansion, and other

business strategies by identifying the key market opportunities and prospects

Save time and money with the readily accessible key market data included in this PDF format industry report. The data is clearly presented and can be easily incorporated into presentations and internal reports.

Contents

1. MARKET FOR ELECTRONIC COMPONENTS IN NORWAY

Overall Market

Market by Type

Electrical capacitors

Electrical resistors

Semiconductor devices

Electronic integrated circuits and microassemblies

Thermionic and cold cathode tubes and valves

Cards incorporating a magnetic stripe

Mounted piezo-electric crystals

Electronic printed circuits

Other electronic components

2. FORECASTS AND FUTURE OUTLOOK

Overall Market

Market by Type

Electrical capacitors

Electrical resistors

Semiconductor devices

Electronic integrated circuits and microassemblies

Thermionic and cold cathode tubes and valves

Cards incorporating a magnetic stripe

Mounted piezo-electric crystals

Electronic printed circuits

Other electronic components

3. MARKET POTENTIAL RATES

4. ELECTRONIC COMPONENT MARKET SIZE COMPARED TO MARKET GROWTH IN DIFFERENT COUNTRIES

5. MARKET DEFINITION

6. METHODOLOGY AND SOURCES

7. ABOUT GLOBAL RESEARCH & DATA SERVICES
