Abstracts

The industry data report Global Steam and Vapour Turbine Market to 2018 - Market Size, Trends, and Forecasts offers the most up-to-date market data on the actual market situation, trends and future outlook for steam and vapour turbines in the world. This research includes historic market data from 2007 to 2013 and forecasts until 2018 which makes the report an invaluable resource for industry executives, marketing, sales and product managers, analysts, and other people looking for key industry data in readily accessible and clearly presented tables and graphs.

The latest market data for this research include:

Overall steam and vapour turbine market size in the world, 2007-2018

Steam and vapour turbine for marine propulsion market size in the world, 2007-2018

Steam and vapour turbine (output more than 40 MW) market size in the world, 2007-2018

Steam and vapour turbine (output less than 40 MW) market size in the world, 2007-2018

Parts of steam and vapour turbines market size in the world, 2007-2018

Growth rates of the overall steam and vapour turbine market and different product segments in the world, 2007-2018

Shares of different product segments of the overall steam and vapour turbine market in the world, 2007, 2013 and 2018

Market Potential Rates of the overall steam and vapour turbine market and different product segments in the world

The product segments analyzed in this data report include:

- Steam and vapour turbines for marine propulsion
- Steam and vapour turbines (output more than 40 MW)
- Steam and vapour turbines (output less than 40 MW)
- Parts of steam and vapour turbines

The report answers the following questions:

What is the current size of the steam and vapour turbine market in the world?

How is the steam and vapour turbine market divided into different product segments?

How are the overall market and different product segments growing?

How is the market predicted to develop in the future?

What is the market potential compared to other countries?

Among the key reasons to purchase include the following:

Gain an outlook of the historic development, current market situation, trends, and future outlook of the steam and vapour turbine market in the world to 2018

Track industry trends and identify market opportunities

Plan and develop marketing, market-entry, market expansion, and other business strategies by identifying the key market trends and prospects

Save time and money with the readily accessible key market data included in

the report. The market data is clearly presented and can be easily incorporated into presentations, internal reports, etc.

The industry data report is produced utilizing the standard methodology of Global Research & Data Services by applying, analyzing, and combining a wide range of sources and in-house analysis.

About

ABOUT GLOBAL RESEARCH & DATA SERVICES

About

Global demand for steam and vapour turbines is forecast to expand 3.9% p.a. between 2014 – 2018. China, Greece, Ireland, Lithuania, and Macedonia are considered the highest potential markets in the coming years.

According to recently published research conducted by a leading international market research company, Global Research & Data Services, the expansion of the global steam and vapour turbine industry is forecast to reach 3.9% p.a. in the coming years. Between 2007 and 2013 the market increased with an average annual growth of 7.2%. Currently, parts of steam and vapour turbines account for 73.3% of the global demand while the remaining market share is divided between steam and vapour turbines (output more than 40 MW) (14.0%), steam and vapour turbines (output less than 40 MW) (11.8%), and steam and vapour turbines for marine propulsion (1.0%).

China, Germany, India, Japan, and the United States represent the largest steam and vapour turbine markets while the strongest annual growth is forecast to occur in Ireland (36.7%), Greece (32.6%), Macedonia (31.8%), Lithuania (30.2%), and Denmark (30.0%).

Steam and vapour turbine market size compared to market growth in different countries

Based on in-house analysis and an advanced model which takes into consideration the actual market size, trends, forecast market growth, and changes in the market environment, Global Research and Data Services calculates the Market Potential Rates, the predicted market potential of the country in the coming years. The larger the Market Potential Rate, the more potential the market has in the coming years; and conversely, the smaller the rate, the less potential the market is considered to have in the future. Based on these Market Potential Rates, the top 20 highest potential steam and vapour turbine markets in the coming years are:

Ranking	Country	Market Potential Rate
1.	China	0.64
2.	Ireland	0.37
3.	Greece	0.33
4.	Macedonia	0.32
5.	Lithuania	0.30
6.	Denmark	0.30
7.	India	0.28
8.	Slovakia	0.28
9.	Bulgaria	0.23
10.	Latvia	0.23
11.	Estonia	0.17
12.	Spain	0.17
13.	Georgia	0.16
14.	Austria	0.16
15.	Lebanon	0.16
16.	France	0.15
17.	Malaysia	0.15
18.	South Korea	0.15
19.	Kazakhstan	0.14
20.	Germany	0.13

The market information is based on new industry reports recently published by Global Research & Data Services. The publications offer the most up-to-date perspective on the actual market situation, trends, and future outlook for steam and vapour turbines in the world and individually for the following countries:

Argentina, Austria, Belgium, Bulgaria, Canada, China, Czech Republic, Denmark, Ecuador, Egypt, Estonia, Finland, France, Georgia, Germany, Greece, Hungary, India, Indonesia, Ireland, Italy, Japan, Kazakhstan, Kyrgyzstan, Latvia, Lebanon, Lithuania, Macedonia, Malaysia, Morocco, Netherlands, Norway, Oman, Pakistan, Peru, Philippines, Poland, Portugal, Romania, Singapore, Slovakia, Slovenia, South Africa, South Korea, Spain, Sweden, Thailand, Turkey, Ukraine, United Kingdom, United States, Vietnam

The studies include historic market data from 2007 to 2013 and forecasts until 2018 which makes the reports an invaluable resource for industry executives, marketing,

sales and product managers, analysts, and other industry professionals looking for key market insights in a readily accessible and clearly presented format.
