Abstracts

The report package Metal Working Machinery Market in Africa to 2021 - Market Size, Development, and Forecasts offers the most up-to-date industry data on the actual market situation, and future outlook for metal working machinery in different African countries. The package includes metal working machinery country reports from the following countries:

Egypt, Ethiopia, Ghana, Morocco, Senegal, South Africa

The research includes historic data from 2010 to 2016 and forecasts until 2021 which makes the reports an invaluable resource for industry executives, marketing, sales and product managers, consultants, analysts, and other people looking for key industry data in readily accessible documents with clearly presented tables and graphs.

The reports help answer the following questions:

What is the current size of the metal working machinery market in different African countries?

How is the metal working machinery market divided into different product segments?

How are the overall market and different product segments growing?

How is the market predicted to develop in the future?

What is the market potential compared to other countries?

The latest industry data included in the reports:

Overall metal working machinery market size, 2010-2021

Metal working machinery market size by product segment, 2010-2021

Growth rates of the overall metal working machinery market and different product segments, 2010-2021

Shares of different product segments of the overall metal working machinery market, 2010, 2016 and 2021

The market data is given for the following product segments:

Machining centres

Unit construction machines (single station)

Multi-station transfer machines

Metalworking lathes

Metal drilling machines

Metal boring and milling machines

Metal tapping and threading machines

Metal grinding machines

Metal sharpening machines

Metal lapping and honing machines

Other metal finishing machines

Metal slotting and shaping machines

Metal broaching machines

Other metal shaping machines

Metal forging, die-stamping and bending machines

Other metal working machines

Among the key reasons to purchase include the following:

Gain an outlook of the historic development, current market situation, and future outlook of the metal working machinery market in different African countries to 2021

Track industry developments and identify market opportunities

Plan and develop marketing, market-entry, market expansion, and other business strategies by identifying the key market opportunities and prospects

Save time and money with the readily accessible key market data included in the reports. The data is clearly presented and can be easily incorporated into presentations and internal reports.
