Date: September 2014 Pages: 54 Price: US\$ 631.02 (Single User License) ID: MEBDB7C322EEN

Abstracts

This industry report offers the most up-to-date market data on the actual market situation, trends and future outlook for metalworking machinery in Finland. The research includes historic market data from 2007 to 2013 and forecasts until 2018 which makes the report an invaluable resource for industry executives, marketing, sales and product managers, analysts, and other people looking for key industry data in readily accessible and clearly presented tables and graphs.

The latest market data for this research include:

Overall metalworking machinery market size, 2007-2018

Metalworking machinery market size by product segment, 2007-2018

Growth rates of the overall metalworking machinery market and different product segments, 2007-2018

Shares of different product segments of the overall metalworking machinery market, 2007, 2013 and 2018

Market Potential Rates of the overall metalworking machinery market and different product segments

The product segments discussed in this data report include:

Machining centres

Single/multistation transfer machines
Lathes for removing metal
Metal drilling machines
Metal milling and boring machines
Metal tapping and threading machines
Metal grinding machines
Metal sharpening machines
Metal lapping and honing machines
Other metal finishing machine tools
Metal slotting and shaping machines
Metal broaching machines
Metal sawing and cutting-off machines
Other metal shaping machines
Machine tools for forging, die-stamping and bending metal
Other machine tools for working metals
Parts and accessories for metalworking machine tools
eport helps answering the following guestions:

The report helps answering the following questions:

What is the current size of the metalworking machinery market in Finland?

How is the metalworking machinery market divided into different product

segments?

How are the overall market and different product segments growing?

How is the market predicted to develop in the future?

What is the market potential compared to other countries?

Among the key reasons to purchase include the following:

Gain an outlook of the historic development, current market situation, trends, and future outlook of the metalworking machinery market in Finland to 2018

Track industry trends and identify market opportunities

Plan and develop marketing, market-entry, market expansion, and other business strategies by identifying the key market trends and prospects

Save time and money with the readily accessible key market data included in the report. The market data is clearly presented and can be easily incorporated into presentations, internal reports, etc.

Contents

1. MARKET FOR METALWORKING MACHINERY IN FINLAND

Overall Market Market by Type Machining centres Single/multistation transfer machines Lathes for removing metal Metal drilling machines Metal milling and boring machines Metal tapping and threading machines Metal grinding machines Metal sharpening machines Metal lapping and honing machines Other metal finishing machine tools Metal slotting and shaping machines Metal broaching machines Metal sawing and cutting-off machines Other metal shaping machines Machine tools for forging, die-stamping and bending metal Other machine tools for working metals Parts and accessories for metal working machine tools

2. FORECASTS AND FUTURE OUTLOOK

Overall Market Market by Type Machining centres Single/multistation transfer machines Lathes for removing metal Metal drilling machines Metal drilling and boring machines Metal apping and threading machines Metal sharpening machines Metal sharpening machines Other metal finishing machine tools Metal slotting and shaping machines

Metalworking Machinery Market in Finland to 2018 - Market Size, Trends, and Forecasts

Metal broaching machines Metal sawing and cutting-off machines Other metal shaping machines Machine tools for forging, die-stamping and bending metal Other machine tools for working metals Parts and accessories for metal working machine tools

3. MARKET POTENTIAL RATES

4. METALWORKING MACHINERY MARKET SIZE COMPARED TO MARKET GROWTH IN DIFFERENT COUNTRIES48

- **5. MARKET DEFINITION**
- 6. METHODOLOGY AND SOURCES

7. ABOUT GLOBAL RESEARCH & DATA SERVICES
