Abstracts

The industry report Primary Battery and Cell Market in South Korea to 2017 - Market Size, Trends, and Forecasts offers the most up-to-date perspective on the actual market situation, trends and future outlook for primary batteries and cells in South Korea. This study includes historic market data from 2006 to 2012 and forecasts until 2017 which makes the report an invaluable resource for industry executives, marketing, sales and product managers, analysts, and other people looking for key market insights in a readily accessible and clearly presented format.

The market study answers key questions such as:

What is the size of the primary battery and cell market in South Korea?

How is the market divided into different product segments?

Which products are growing fast?

How has the market been developing?

How does the future look like?

What is the market potential?

How do the macroeconomic indicators look like?

The latest market information included in the study:

Overall market size for primary batteries and cells in South Korea

Market size for primary batteries and cells by product segment

Forecasts and future outlook of the market

Macroeconomic indicators

Product segments analyzed in the study:

Air-zinc primary batteries and cells

Lithium primary batteries and cells

Manganese dioxide primary batteries and cells

Mercuric oxide primary batteries and cells

Silver oxide primary batteries and cells

Other primary batteries and cells

Parts of primary batteries and cells

Reasons to buy:

Gain a complete picture of the historic development, current market situation, trends, and future prospects of the primary battery and cell market in South Korea to 2017

Track industry trends and identify market opportunities

Plan and develop marketing, market-entry, market expansion, and other business strategies by identifying the key market trends and prospects

Save time and money with the readily accessible key market information included in the report. The market information is clearly presented and can be

easily used in presentations etc.

The industry report is built by the standard methodology of Global Research & Data Services by using, analyzing, and combining a wide range of sources and in-house analysis.

Contents

Market for Primary Batteries and Cells in South Korea

- Overall market

- Market by product type

 - Air-zinc primary batteries and cells

 - Lithium primary batteries and cells

 - Manganese dioxide primary batteries and cells

 - Mercuric oxide primary batteries and cells

 - Silver oxide primary batteries and cells

 - Other primary batteries and cells

 - Parts of primary batteries and cells

Forecasts and Future Outlook

- Overall market

- Market by product type
