## Abstracts

The report package Steam Generator Markets in Africa to 2021 offers the most up-to-date industry data on the actual market situation, and future outlook for steam generators in different African countries. The package includes country reports from the following countries:

Egypt, Ethiopia, Malawi, Morocco, Senegal, South Africa, Swaziland

The research includes historical data from 2010 to 2016 and forecasts until 2021 which makes the reports an invaluable resource for industry executives, marketing, sales and product managers, consultants, analysts, and other people looking for key industry data in readily accessible documents with clearly presented tables and graphs.

The reports help answer the following questions:

What is the current size of the steam generator market in different African countries?

How is the market split into different types of steam generators?

How are the overall market and different product types growing?

How is the market predicted to develop in the future?

The latest industry data included in the reports:

Demand for steam generators, 2010-2021

## Steam generator market size by product type, 2010-2021

Growth rates of the overall market and different product segments, 2010-2021

Shares of different product segments of the overall market, 2010, 2016, and 2021

The market data is given for the following product segments:

Water tube boilers (steam production over 45T per hour)

Water tube boilers (steam production less than 45T per hour)

Other vapour generating boilers

Super-heated water boilers

Auxiliary plant for steam generators

Condensers for steam and vapour power units

Parts of steam generators

Among the key reasons to purchase include the following:

Gain an outlook of the historical development, current market situation, and future outlook of the steam generator market in different African countries to 2021

Track industry developments and identify market opportunities

Plan and develop marketing, market-entry, market expansion, and other business strategies by identifying the key market opportunities and prospects

Save time and money with the readily accessible key market data included in the reports. The data is clearly presented and can be easily incorporated into presentations and internal reports.
