## Abstracts

The report Tyre Market in Canada to 2022 offers the most up-to-date industry data on the actual market situation, and future outlook for tyres in Canada. The research includes historical data from 2011 to 2017 and forecasts until 2022 which makes the report an invaluable resource for industry executives, marketing, sales and product managers, consultants, analysts, and other people looking for key industry data in a readily accessible document with clearly presented tables and graphs.

The report helps answer the following questions:

What is the size of the tyre market in Canada?

How much tyres are produced in Canada?

How is the market split into different types of tyres?

How are the overall market and different product types growing?

How is the market predicted to develop in the future?

The latest industry data included in this report:

Demand for tyres, 2011-2022

Production of tyres, 2011-2022

Tyre market size by product type, 2011-2022

Growth rates of the overall market and different product segments,  
2011-2022

Shares of different product segments of the overall market, 2011, 2017, and  
2022

The market data is given for the following product segments:

- New car tyres
- New lorry and bus tyres
- New motorcycle tyres
- New bicycle tyres
- New aircraft tyres
- Other new tyres
- Retreaded tyres
- Camelback strips for retreading tyres
- Cushioned and solid tyres
- Rubber inner tubes for motor vehicles
- Rubber inner tubes for bicycles
- Other rubber inner tubes

Among the key reasons to purchase include the following:

- Gain an outlook of the historical development, current market situation, and future outlook of the tyre market in Canada to 2022

- Track industry developments and identify market opportunities

- Plan and develop marketing, market-entry, market expansion, and other business strategies by identifying the key market opportunities and prospects

- Save time and money with the readily accessible key market data included in this PDF format industry report. The data is clearly presented and can be easily incorporated into presentations and internal reports.
