Abstracts

The report package Welding Machinery Market in Western Europe to 2021 - Market Size, Development, and Forecasts offers the most up-to-date industry data on the actual market situation, and future outlook for welding machinery in different Western European countries. The package includes welding machinery country reports from the following countries:

Austria, Belgium, Denmark, Finland, France, Germany, Ireland, Italy, Netherlands, Norway, Portugal, Spain, Sweden, United Kingdom

The research includes historic data from 2010 to 2016 and forecasts until 2021 which makes the reports an invaluable resource for industry executives, marketing, sales and product managers, consultants, analysts, and other people looking for key industry data in readily accessible documents with clearly presented tables and graphs.

The reports help answer the following questions:

What is the current size of the welding machinery market in different Western European countries?

How is the welding machinery market divided into different product segments?

How are the overall market and different product segments growing?

How is the market predicted to develop in the future?

What is the market potential compared to other countries?

The latest industry data included in the reports:

Overall welding machinery market size, 2010-2021

Welding machinery market size by product segment, 2010-2021

Growth rates of the overall welding machinery market and different product segments, 2010-2021

Shares of different product segments of the overall welding machinery market, 2010, 2016 and 2021

The market data is given for the following product segments:

Gas-operated welding machinery

Automatic electric resistance welding machinery

Non-automatic electric resistance welding machinery

Automatic electric plasma and arc welding machinery

Non-automatic electric plasma and arc welding machinery

Other electric, ultrasonic and laser welding machinery

Other welding machinery

Among the key reasons to purchase include the following:

Gain an outlook of the historic development, current market situation, and future outlook of the welding machinery market in different Western European countries to 2021

Track industry developments and identify market opportunities

Plan and develop marketing, market-entry, market expansion, and other business strategies by identifying the key market opportunities and prospects

Save time and money with the readily accessible key market data included in the reports. The data is clearly presented and can be easily incorporated into presentations and internal reports.

Contents

1. MARKET FOR WELDING MACHINERY IN THE COUNTRY IN QUESTION

Overall Market

Market by Type

Gas-operated welding machinery

Automatic electric resistance welding machinery

Non-automatic electric resistance welding machinery

Automatic electric plasma and arc welding machinery

Non-automatic electric plasma and arc welding machinery

Other electric, ultrasonic and laser welding machinery

Other welding machinery

2. FORECASTS AND FUTURE OUTLOOK

Overall Market

Market by Type

Gas-operated welding machinery

Automatic electric resistance welding machinery

Non-automatic electric resistance welding machinery

Automatic electric plasma and arc welding machinery

Non-automatic electric plasma and arc welding machinery

Other electric, ultrasonic and laser welding machinery

Other welding machinery

3. MARKET DEFINITION

4. METHODOLOGY AND SOURCES

5. ABOUT GLOBAL RESEARCH & DATA SERVICES
