How is the market split into different types of wood based panels and veneer sheets?

How are the overall market and different product types growing?

How is the market predicted to develop in the future?

Who are the market players?

The latest industry data included in this report:

Demand for wood based panels and veneer sheets, 2010-2021

Production of wood based panels and veneer sheets, 2010-2021

Wood based panel and veneer sheet market size by product type, 2010-2021

Growth rates of the overall market and different product segments, 2010-2021

Shares of different product segments of the overall market, 2010, 2016, and 2021

The market data is given for the following product segments:

Densified wood

Fibreboard (density over 0.8 g/cm³)

Fibreboard (density 0.8 g/cm³ or less)

Other fibreboard

Oriented strand board and waferboard

Particle board of wood

Particle board of other ligneous materials

Plywood (outer ply of tropical wood, each ply not over 6mm)

Plywood (outer ply of non-coniferous wood, each ply not over 6mm)

Other plywood and veneered panels

Coniferous (softwood) veneers and plywood sheets

Light and dark red meranti and meranti bakau veneers

Veneers of other tropical woods

Other veneers and plywood sheets

Among the key reasons to purchase include the following:

Gain an outlook of the historical development, current market situation, and future outlook of the wood based panel and veneer sheet market in United States to 2021

Track industry developments and identify market opportunities

Plan and develop marketing, market-entry, market expansion, and other business strategies by identifying the key market opportunities and prospects

Save time and money with the readily accessible key market data included in this PDF format industry report. The data is clearly presented and can be easily incorporated into presentations and internal reports.
