Report Overview

Stringent policies concerning the use of locally sourced wood are prompting the indoor furniture sector in Indonesia to adopt only legally obtained raw materials.

The government has started requiring manufacturers to obtain certification verifying that the lumber they utilize is procured from accredited vendors. Different types of assistance are provided by the administration to ensure compliance. Besides promoting sustainability and environmental protection, these efforts are in line with the growing global demand for pieces constructed using eco-friendly components and processes.

Exports of furniture rose last year and are predicted to keep growing over the next 12 months. Demand from alternative markets is supporting the industry's development while revenue from traditional destinations.

This report focuses on the main types of indoor furniture – living room, bedroom, dining and kitchen, and bar and bistro pieces.

This Indonesia Sourcing Report is part of the Developing Country Sourcing Report series designed to provide buyers with information on new products from export manufacturers in Southeast Asia that specialize in handmade merchandise.

Global Sources is offering Developing Country Sourcing Reports as part of its corporate social responsibility undertakings in partnership with the Hinrich Foundation, a philanthropic development organization whose mission is promoting sustainable global trade.

What you'll get

In-depth profiles of 18 major suppliers with a comprehensive look at their product and pricing strategy, manufacturing and export capability, verified contact details, and more – this information is not available anywhere else

180 full-color images that depict popular export models of indoor furniture, complete with product descriptions, prices, minimum order requirements and delivery times
