Abstracts

Report Overview

A sense of guarded optimism prevails over the fashion accessories industry in Indonesia. Although exports are forecast to increase this year, many companies anticipate foreign income to be affected by the growing instability in the EU as a result of the sovereign debt crisis.

Revenue in recent years has been generally on an upward trend, even during the global financial slump. It declined in 2011, however, because of economic troubles in the EU and rising domestic demand.

The sector is largely composed of small and midsize suppliers, which typically suffer from insufficient capability for product development and market expansion. To overcome these limitations, local industry groups extend assistance to enterprises by means of training and exposure to international trade shows.

This report focuses on the main types of footwear from Indonesia – belts, fashion bags and wallets, jewelry, and head- and neckwear.

This **Indonesia Sourcing Report** is part of the **Developing Country Sourcing Report** series designed to provide buyers with information on new products from export manufacturers in Southeast Asia that specialize in hand-made merchandise.

What you'll get

In-depth profiles of 15 verified suppliers with a comprehensive look at their product and pricing strategy, manufacturing and export capability, product & market focus, verified contact details, and more

A Product Gallery featuring 150 full-color images that depict popular fashion accessories, with detailed descriptions and minimum order requirements

Profile tables of 16 additional suppliers, with key information such as production capacities, export capabilities and key export markets

Supplier information in tabular format to help you compare suppliers at a glance

Results of the custom-designed supplier survey, which forecasts industry trends for the next 12 months

An extensive overview of the industry discussing the main challenges facing suppliers

An in-depth examination of the supplier base highlighting key characteristics of the different types of companies

Details of the primary production centers

An update of the latest trends in design, R&D, materials and components

A review of the key factors that influence the price and quality of low-end, midrange and high-end products

Comprehensive pricing tables featuring export price ranges
