## Abstracts

The Global Aircraft De-icing Market reached USD 1.67 billion in 2024 and is projected to grow at a CAGR of 4.6% from 2025 to 2034. This growth is largely driven by an increase in global air travel, especially in emerging economies. As disposable incomes rise, the middle class expands, and globalization continues to progress, demand for air travel is reaching new heights. The need for modern aviation infrastructure, particularly advanced de-icing systems, is intensifying to ensure safe and efficient operations across various weather conditions. The market growth is further supported by the aviation industry's rapid expansion, technological advancements, and the shift toward sustainable solutions. Innovations in de-icing fluids and equipment continue to improve safety, operational efficiency, and environmental sustainability, which are crucial as global air traffic increases.

Technological advancements in the de-icing industry are significantly enhancing operational performance, including infrared systems, electrothermal ice protection, and eco-friendly de-icing fluids. These systems not only accelerate de-icing but also reduce environmental impacts, making them more appealing to airports and airlines worldwide. By improving fuel efficiency and meeting stringent environmental regulations, these systems ensure smoother and safer winter operations, which are vital for maintaining the high safety standards expected in the aviation industry. As aviation networks grow, especially in regions that face harsh winters, the demand for efficient, environmentally friendly de-icing technologies is expected to surge.

The market is divided into two main segments: de-icing equipment and de-icing chemicals and fluids. In 2024, the de-icing chemicals and fluids segment holds the largest share, driven by an increasing focus on environmental responsibility and operational efficiency. Biodegradable and non-toxic fluids are gaining popularity, as they

effectively remove ice while reducing environmental harm. These innovative solutions also help airlines meet strict regulatory requirements, enhancing overall safety during winter operations.

The aircraft de-icing market is also segmented by application into commercial and military sectors. The commercial sector is anticipated to grow at a robust CAGR of 4.9% during the forecast period, largely due to the rising volume of global air traffic and the increasing need for safe and reliable winter operations. Airlines are increasingly focused on adopting efficient de-icing technologies to prevent ice formation and minimize flight delays during cold weather, ensuring a smooth and safe flying experience for passengers.

North America is expected to dominate the aircraft de-icing market, reaching USD 999 million by 2034. The region's well-established aviation industry, combined with frequent winter weather conditions, positions it as the largest market for de-icing technologies. Airports and airlines in North America are actively embracing eco-friendly de-icing solutions that not only enhance operational efficiency but also support regulatory compliance. This emphasis on safety and environmental responsibility will continue to drive steady growth in the market across the region.

## Contents

### CHAPTER 1 METHODOLOGY & SCOPE

- 1.1 Market scope & definitions
- 1.2 Base estimates & calculations
- 1.3 Forecast calculations
- 1.4 Data sources
  - 1.4.1 Primary
  - 1.4.2 Secondary
    - 1.4.2.1 Paid sources
    - 1.4.2.2 Public sources

### CHAPTER 2 EXECUTIVE SUMMARY

- 2.1 Industry synopsis, 2021-2034

### CHAPTER 3 INDUSTRY INSIGHTS

- 3.1 Industry ecosystem analysis
  - 3.1.1 Factor affecting the value chain
  - 3.1.2 Profit margin analysis
  - 3.1.3 Disruptions
  - 3.1.4 Future outlook
  - 3.1.5 Manufacturers
  - 3.1.6 Distributors
- 3.2 Supplier landscape
- 3.3 Profit margin analysis
- 3.4 Key news & initiatives
- 3.5 Regulatory landscape
- 3.6 Impact forces
  - 3.6.1 Growth drivers
    - 3.6.1.1 Increasing demand for safer aircraft operations worldwide
    - 3.6.1.2 Rising air traffic in emerging global economies
    - 3.6.1.3 Advancements in aircraft de-icing technologies and systems
    - 3.6.1.4 Stricter aviation safety regulations and compliance requirements
    - 3.6.1.5 Growth in the fleet of commercial aircraft globally
  - 3.6.2 Industry pitfalls & challenges
    - 3.6.2.1 High operational costs of advanced de-icing systems

- 3.6.2.2 Environmental concerns regarding chemical de-icing solutions
- 3.7 Growth potential analysis
- 3.8 Porter's analysis
- 3.9 PESTEL analysis

## **CHAPTER 4 COMPETITIVE LANDSCAPE, 2024**

- 4.1 Introduction
- 4.2 Company market share analysis
- 4.3 Competitive positioning matrix
- 4.4 Strategic outlook matrix

## **CHAPTER 5 MARKET ESTIMATES & FORECAST, BY METHOD, 2021-2034 (USD MILLION)**

- 5.1 Key trends
- 5.2 De-icing with fluids
- 5.3 De-icing by alternative methods

## **CHAPTER 6 MARKET ESTIMATES & FORECAST, BY OFFERING, 2021-2034 (USD MILLION)**

- 6.1 Key trends
- 6.2 De-icing chemicals and fluids
- 6.3 De-icing equipment

## **CHAPTER 7 MARKET ESTIMATES & FORECAST, BY APPLICATION, 2021-2034 (USD MILLION)**

- 7.1 Key trends
- 7.2 Commercial
- 7.3 Military

## **CHAPTER 8 MARKET ESTIMATES & FORECAST, BY REGION, 2021-2034 (USD MILLION)**

- 8.1 Key trends
- 8.2 North America
  - 8.2.1 U.S.

- 8.2.2 Canada
- 8.3 Europe
  - 8.3.1 UK
  - 8.3.2 Germany
  - 8.3.3 France
  - 8.3.4 Italy
  - 8.3.5 Spain
  - 8.3.6 Russia
- 8.4 Asia Pacific
  - 8.4.1 China
  - 8.4.2 India
  - 8.4.3 Japan
  - 8.4.4 South Korea
  - 8.4.5 Australia
- 8.5 Latin America
  - 8.5.1 Brazil
  - 8.5.2 Mexico
- 8.6 MEA
  - 8.6.1 South Africa
  - 8.6.2 Saudi Arabia
  - 8.6.3 UAE

## **CHAPTER 9 COMPANY PROFILES**

- 9.1 BASF SE
- 9.2 Clariant
- 9.3 Cryotech (General Atomics)
- 9.4 DuPont de Nemours Inc
- 9.5 Global Ground Support LLC
- 9.6 Ground Support Specialists
- 9.7 Inland Technologies International Limited
- 9.8 Kilfrost Limited
- 9.9 Oshkosh Aerotech LLC (JBT Corporation)
- 9.10 Textron Ground Support Equipment Inc.
- 9.11 Tronair Inc.
- 9.12 Vestergaard Company

## I would like to order

Product name: Aircraft De-icing Market Opportunity, Growth Drivers, Industry Trend Analysis, and Forecast 2025 – 2034

Product link: <https://marketpublishers.com/r/A4B4455AD652EN.html>

Price: US\$ 4,850.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

[info@marketpublishers.com](mailto:info@marketpublishers.com)

## Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/A4B4455AD652EN.html>
