Abstracts

The Global Matting Agents Market reached USD 440.4 million in 2024 and is expected to grow at a steady CAGR of 4.8% from 2025 to 2034. Matting agents are crucial additives used in paints, coatings, and inks to reduce gloss levels and produce matte finishes. They typically consist of finely ground particles that scatter light, providing a smooth, non-reflective surface. As the demand for matte finishes continues to rise across multiple industries, the market for these agents is experiencing significant growth. This surge is driven not only by the desire for aesthetic appeal but also by the increasing trend toward sustainability and eco-friendly formulations.

Consumers and manufacturers alike are showing a growing preference for low-VOC (volatile organic compounds) products, propelling the adoption of green matting agents. Furthermore, the versatility of matting agents in creating unique textures and enhancing product durability is adding to their widespread use across various sectors. From automotive coatings to industrial applications, matting agents are now an essential component for manufacturers striving to meet evolving consumer demands and environmental standards.

One of the most significant growth drivers for the matting agents market is the widespread adoption of matte aesthetics in industries such as automotive, architecture, and consumer goods. As both manufacturers and consumers increasingly prefer non-glossy, elegant finishes, these agents are becoming indispensable in producing high-quality coatings and paints that align with this design trend. In addition to aesthetic preferences, there is also a notable focus on creating more sustainable products. Matting agents that are eco-friendly and feature low-VOC properties are increasingly popular, helping manufacturers meet environmental regulations while responding to consumer demand for greener products.

The inorganic segment of the market, valued at USD 276.8 million in 2024, is poised to experience significant growth, projected to expand at a CAGR of 5% over the forecast period. Inorganic matting agents, such as silica and aluminum-based compounds, are preferred due to their superior durability, heat resistance, and cost-effectiveness. These materials are particularly well-suited for industrial coatings, paints, and varnishes, where performance and stability are critical. The increasing demand for matte finishes in industrial applications, coupled with technological advancements that improve the performance of these agents, is a key factor driving the growth of this segment.

Silica-based matting agents, valued at USD 236.5 million in 2024, are also gaining traction, with an estimated CAGR of 4.4% through 2034. Known for their ability to provide precise matte finishes with a smooth, appealing texture, silica-based agents are widely used in automotive, industrial, and decorative coatings. Their compatibility with a broad range of coatings, combined with their low environmental impact and VOC-friendly properties, makes them highly sought after in today's market.

China matting agents market, which reached USD 103.2 million in 2024, is expected to grow at a CAGR of 4.5% from 2025 to 2034. The demand for matte finishes in architectural paints and automotive coatings, combined with China's increasing focus on sustainable solutions, is fueling this growth. The shift toward eco-conscious products and matte aesthetics in the region is a major factor contributing to the expansion of the matting agents market in China.

Contents

CHAPTER 1 METHODOLOGY & SCOPE

- 1.1 Market scope & definitions
- 1.2 Base estimates & calculations
- 1.3 Forecast calculations
- 1.4 Data sources
 - 1.4.1 Primary
 - 1.4.2 Secondary
 - 1.4.2.1 Paid sources
 - 1.4.2.2 Public sources

CHAPTER 2 EXECUTIVE SUMMARY

- 2.1 Industry synopsis, 2021-2034

CHAPTER 3 INDUSTRY INSIGHTS

- 3.1 Industry ecosystem analysis
 - 3.1.1 Factor affecting the value chain
 - 3.1.2 Profit margin analysis
 - 3.1.3 Disruptions
 - 3.1.4 Future outlook
 - 3.1.5 Manufacturers
 - 3.1.6 Distributors
- 3.2 Supplier landscape
- 3.3 Profit margin analysis
- 3.4 Key news & initiatives
- 3.5 Regulatory landscape
- 3.6 Impact forces
 - 3.6.1 Growth drivers
 - 3.6.1.1 Increasing demand for matte finish products
 - 3.6.1.2 Rising automotive industry
 - 3.6.1.3 Advancements in coating technologies
 - 3.6.2 Industry pitfalls & challenges
 - 3.6.2.1 Competition and price sensitivity
 - 3.6.2.2 Regulatory compliance
- 3.7 Growth potential analysis

3.8 Porter's analysis

3.9 PESTEL analysis

CHAPTER 4 COMPETITIVE LANDSCAPE, 2024

4.1 Introduction

4.2 Company market share analysis

4.3 Competitive positioning matrix

4.4 Strategic outlook matrix

CHAPTER 5 MARKET ESTIMATES & FORECAST, BY SOURCE, 2021-2034 (USD MILLION) (KILO TONS)

5.1 Key trends

5.2 Organic

5.3 Inorganic

CHAPTER 6 MARKET ESTIMATES & FORECAST, BY PRODUCT, 2021-2034 (USD MILLION) (KILO TONS)

6.1 Key trends

6.2 Silica

6.3 Wax-based

6.4 Polymer-based

6.5 Other materials

CHAPTER 7 MARKET ESTIMATES & FORECAST, BY APPLICATION, 2021-2034 (USD MILLION) (KILO TONS)

7.1 Key trends

7.2 Paints & Coatings

7.3 Inks

7.4 Adhesives

7.5 Plastics

7.6 Others

CHAPTER 8 MARKET ESTIMATES & FORECAST, BY END USE, 2021-2034 (USD MILLION) (KILO TONS)

- 8.1 Key trends
- 8.2 Automotive
- 8.3 Construction
- 8.4 Furniture
- 8.5 Packaging
- 8.6 Printing
- 8.7 Electronics
- 8.8 Others

CHAPTER 9 MARKET ESTIMATES & FORECAST, BY REGION, 2021-2034 (USD MILLION) (KILO TONS)

- 9.1 Key trends
- 9.2 North America
 - 9.2.1 U.S.
 - 9.2.2 Canada
- 9.3 Europe
 - 9.3.1 UK
 - 9.3.2 Germany
 - 9.3.3 France
 - 9.3.4 Italy
 - 9.3.5 Spain
 - 9.3.6 Russia
- 9.4 Asia Pacific
 - 9.4.1 China
 - 9.4.2 India
 - 9.4.3 Japan
 - 9.4.4 South Korea
 - 9.4.5 Australia
- 9.5 Latin America
 - 9.5.1 Brazil
 - 9.5.2 Mexico
- 9.6 MEA
 - 9.6.1 South Africa
 - 9.6.2 Saudi Arabia
 - 9.6.3 UAE

CHAPTER 10 COMPANY PROFILES

- 10.1 Akzo Nobel N.V.
- 10.2 ALTANA
- 10.3 Arkema Group
- 10.4 BASF SE
- 10.5 Deuteron GmbH
- 10.6 Eastman Chemical Company
- 10.7 Evonik Industries AG
- 10.8 Huntsman International LLC
- 10.9 Imerys S.A.
- 10.10 J.M. Huber Corporation
- 10.11 Lubrizol Corporation
- 10.12 PPG Industries, Inc.
- 10.13 Solvay S.A.
- 10.14 W. R. Grace & Co.-Conn
