Abstracts

Europe home automation systems market reached $11.24 billion in 2018, representing the third largest regional market in the world owing to a high adoption rate of home automation systems across the region.

Highlighted with 33 tables and 50 figures, this 152-page report “Europe Home Automation Systems Market by System Component, Software Algorithm, Product, Service Type, Technology, and Country 2014-2025: Growth Opportunity and Business Strategy” is based on a comprehensive research of the entire Europe market and all its sub-segments through extensively detailed classifications. Profound analysis and assessment are generated from premium primary and secondary information sources with inputs derived from industry professionals across the value chain. The report provides historical market data for 2014-2017, revenue estimates for 2018, and forecasts from 2019 till 2025. (Please note: Before delivery, the report will be updated so that the latest historical year is the base year and the forecast covers the next 5-10 years over the base year.)

In-depth qualitative analyses include identification and investigation of the following aspects:

Market Structure

Growth Drivers

Restraints and Challenges

Emerging Product Trends & Market Opportunities

Porter’s Fiver Forces

The trend and outlook of Europe market is forecast in optimistic, balanced, and conservative view. The balanced (most likely) projection is used to quantify Europe home automation systems market in every aspect of the classification from perspectives of System Component, Software Algorithm, Product, Service Type, Technology, and Country.

Based on system component, the Europe market is segmented into the following sub-markets with annual revenue for 2014-2025 (historical and forecast) included in each section.

Hardware

Software

Service

On basis of software algorithm, the Europe market is analyzed on the following segments with annual revenue for 2014-2025 (historical and forecast) included in each segment.

Proactive

Behavioral

On basis of product type, the Europe market is analyzed on the following segments with annual revenue for 2014-2025 (historical and forecast) included in each section.

HVAC Control and Energy Management

Security and Access Control

Entertainment Control

Lighting Control

Other Controls

On basis of service type, the Europe market is analyzed on the following segments with annual revenue for 2014-2025 (historical and forecast) included in each segment.

Managed Services

Mainstream

Do-It-Yourself (DIY)

Luxury

On basis of technology, the Europe market is analyzed on the following segments with annual revenue for 2014-2025 (historical and forecast) included in each section.

Wired Technology

Wireless Communication Technologies

Network Technologies

Power-line Technology

Other Technologies

Geographically, the following national markets are fully investigated:

Germany

France

UK

Italy

Spain

Rest of Europe

For each of the aforementioned countries, detailed analysis and annual revenue are available for 2014-2025. The breakdown of key national markets by Product and Service Type over the forecast years are also included.

The report also covers current competitive scenario and the predicted manufacture trend; and profiles key vendors including market leaders and important emerging players.

Specifically, potential risks associated with investing in Europe home automation systems market are assayed quantitatively and qualitatively through GMD's Risk Assessment System. According to the risk analysis and evaluation, Critical Success Factors (CSFs) are generated as a guidance to help investors & stockholders identify emerging opportunities, manage and minimize the risks, develop appropriate business models, and make wise strategies and decisions.

Key Players:
