## Abstracts

North America enteral nutrition market is expected to grow by 7.8% annually in the forecast period and reach \$5,873.8 million by 2030 driven by the increasing incidence of malnutrition, rising number of patients suffering with chronic diseases, and surge in adoption of enteral nutrition over parenteral nutrition due to lower cost and complications of enteral nutrition.

Highlighted with 59 tables and 53 figures, this 129-page report “North America Enteral Nutrition Market 2020-2030 by Nutrient, Application, Category, Product Form, End User, Distribution Channel, and Country: Trend Forecast and Growth Opportunity” is based on a comprehensive research of the entire North America enteral nutrition market and all its sub-segments through extensively detailed classifications. Profound analysis and assessment are generated from premium primary and secondary information sources with inputs derived from industry professionals across the value chain. The report is based on studies on 2017-2019 and provides estimate for 2020 and forecast from 2021 till 2030 with 2019 as the base year (Year 2020 is not appropriate for research base due to the outbreak of COVID-19).
