Abstracts

North America smart fleet management market is expected to grow by 6.5% annually in the forecast period and reach \$231.1 billion by 2030 driven by the rising need for smart management solutions among smart cars, trains, marine vehicles, and aircrafts.

Highlighted with 24 tables and 43 figures, this 105-page report “North America Smart Fleet Management Market 2020-2030 by Mode of Transport (Roadways, Railways, Marine, Airways), Connectivity, Application (ADAS, Tracking, Optimization, Remote Diagnostics), Industry Vertical, and Country: Trend Forecast and Growth Opportunity” is based on a comprehensive research of the entire North America smart fleet management market and all its sub-segments through extensively detailed classifications. Profound analysis and assessment are generated from premium primary and secondary information sources with inputs derived from industry professionals across the value chain. The report is based on studies on 2015-2019 and provides forecast from 2020 till 2030 with 2019 as the base year.

(Please note: The report will be updated before delivery so that the latest historical year is the base year and the forecast covers at least 5 years over the base year.)

In-depth qualitative analyses include identification and investigation of the following aspects:

Market Structure

Growth Drivers

Restraints and Challenges

Emerging Product Trends & Market Opportunities

Porter's Fiver Forces

The trend and outlook of North America market is forecast in optimistic, balanced, and conservative view by taking into account of COVID-19. The balanced (most likely) projection is used to quantify North America smart fleet management market in every aspect of the classification from perspectives of Mode of Transport, Connectivity, Application, Industry Vertical, and Country.

Based on Mode of Transport, the North America market is segmented into the following sub-markets with annual revenue for 2019-2030 included in each section.

Roadways Fleet

Railways Fleet

Marine Fleet

Airways Fleet

Based on Connectivity, the North America market is segmented into the following sub-markets with annual revenue for 2019-2030 included in each section.

Short Range Communication

Long Range Communication

Cloud-based Connectivity

Based on Application, the North America market is segmented into the following sub-markets with annual revenue for 2019-2030 included in each section.

Advanced Driver Assistance Systems (ADAS)

Fleet Tracking

Fleet Optimization

Remote Diagnostics

Other Applications

Based on Industry Vertical, the North America market is segmented into the following sub-markets with annual revenue for 2019-2030 included in each section.

Transportation and Logistics

Automotive Industry

Government

Oil & Gas

Other Verticals

Geographically, the following national/local markets are fully investigated:

U.S.

Canada

Mexico

For each country, detailed analysis and data for annual revenue are available for 2019-2030. The breakdown of key national markets by Mode of Transport, Connectivity,

and Application over the forecast years is also included.

The report also covers current competitive scenario and the predicted trend; and profiles key vendors including market leaders and important emerging players.

Specifically, potential risks associated with investing in North America smart fleet management market are assayed quantitatively and qualitatively through GMD's Risk Assessment System. According to the risk analysis and evaluation, Critical Success Factors (CSFs) are generated as a guidance to help investors & stockholders identify emerging opportunities, manage and minimize the risks, develop appropriate business models, and make wise strategies and decisions.
