Abstracts

North America smart thermostat market is expected to grow by 20.1% annually in the forecast period and reach $5.5 billion by 2030.

Highlighted with 23 tables and 43 figures, this 96-page report “North America Smart Thermostat Market 2020-2030 by Component, Product, Technology, Application, End User, and Country: Trend Outlook and Growth Opportunity” is based on a comprehensive research of the entire North America smart thermostat market and all its sub-segments through extensively detailed classifications. Profound analysis and assessment are generated from premium primary and secondary information sources with inputs derived from industry professionals across the value chain. In this report 2019 is the base year for market analysis, with estimates and forecast covering 2020-2030.
(Please Note: The report will be updated before delivery to make sure that the latest historical year is the base year and the forecast covers at least 5 years over the base year.)

In-depth qualitative analyses include identification and investigation of the following aspects:

Restraints and Challenges

Emerging Product Trends & Market Opportunities

Porter’s Fiver Forces

The trend and outlook of North America market is forecast in optimistic, balanced, and conservative view. The balanced (most likely) projection is used to quantify North America smart thermostat market in every aspect of the classification from perspectives of Component, Product, Technology, Application, End User, and Country.
Based on Component, the North America market is segmented into the following sub-markets with annual revenue ($ mn) for 2019-2030 included in each section.

Display

Temperature Sensor

Humidity Sensor

Motion Sensor

Other Components

Based on Product, the North America market is segmented into the following sub-markets with annual revenue ($ mn) for 2019-2030 included in each section.

Standalone Thermostats

Network Thermostats

Learning Thermostats

Based on Technology, the North America market is segmented into the following sub-markets with annual revenue ($ mn) for 2019-2030 included in each section.
Wired Technology
Wireless Technology

Wi-Fi

ZigBee

Near-field Communications

Bluetooth

Other Wireless Technologies

Based on Application, the North America market is segmented into the following sub-markets with annual revenue ($ mn) for 2019-2030 included in each section.

Heating Equipment

Cooling Equipment

Based on End User, the North America market is segmented into the following sub-markets with annual revenue ($ mn) for 2019-2030 included in each section.

Industrial

Commercial

Residential

Public Infrastructure

Geographically, the following national/local markets are fully investigated:

U.S.

Canada

For each of the aforementioned countries, market analysis and revenue data are

available for 2019-2030. The breakdown of major national markets by Component, Technology, and End User over the study years (2019-2030) is also included.

The report also covers current competitive scenario and the predicted trend; and profiles key vendors including market leaders and important emerging players.

Specifically, potential risks associated with investing in North America smart thermostat market are assayed quantitatively and qualitatively through GMD’s Risk Assessment System. According to the risk analysis and evaluation, Critical Success Factors (CSFs) are generated as a guidance to help investors & stockholders identify emerging opportunities, manage and minimize the risks, develop appropriate business models, and make wise strategies and decisions.

Key Players (this may not be a complete list and extra companies can be added upon request):
Carrier Corporation
ecobee
Emerson
Hive
Honeywell
Johnson Controls
Lux
Nest Labs
Netatmo
Nortek, Inc.
Schneider Electric SE
Tado

(Please Note: The report will be updated before delivery to make sure that the latest historical year is the base year and the forecast covers at least 5 years over the base year.)
