Abstracts

North America specialty films market is expected to grow by 4.7% annually in the forecast period and reach \$14.86 billion by 2030 owing to robust and high tensile packaging application, increasing demand for the product in various industry verticals, and the development of technologically advanced materials.

Highlighted with 21 tables and 42 figures, this 101-page report “North America Specialty Films Market 2020-2030 by Resin (Polyester, Nylon, Polyolefin, Fluoropolymer), Function (Barrier, Safety, Conduction), Industry Vertical, and Country: Trend Forecast and Growth Opportunity” is based on a comprehensive research of the entire North America specialty films market and all its sub-segments through extensively detailed classifications. Profound analysis and assessment are generated from premium primary and secondary information sources with inputs derived from industry professionals across the value chain. The report is based on studies on 2017-2019 and provides estimate and forecast from 2020 till 2030 with 2019 as the base year. (Please note: The report will be updated before delivery so that the latest historical year is the base year and the forecast covers at least 5 years over the base year.)

In-depth qualitative analyses include identification and investigation of the following aspects:

Market Structure

Growth Drivers

Restraints and Challenges

Emerging Product Trends & Market Opportunities

Porter's Five Forces

The trend and outlook of North America market is forecast in optimistic, balanced, and conservative view by taking into account of COVID-19. The balanced (most likely) projection is used to quantify North America specialty films market in every aspect of the classification from perspectives of Resin, Function, Industry Vertical, and Country.

Based on Resin, the North America market is segmented into the following sub-markets with annual revenue (\$ mn) for 2019-2030 included in each section.

Polyester

Nylon

Polyolefin

Fluoropolymer

Polyacrylamide

Polyimide

Other Resins

Based on Function, the North America market is segmented into the following sub-markets with annual revenue (\$ mn) for 2019-2030 included in each section.

Barrier

Safety and Security

Conduction and Insulation

Microporous Function

Decorative Function

Other Functions

Based on Industry Vertical, the North America market is segmented into the following sub-markets with annual revenue (\$ mn) for 2019-2030 included in each section.

Packaging

Transportation

Construction

Personal Care

Electrical and Electronics

Medical Industry

Other Industry Verticals

Geographically, the following national/local markets are fully investigated:

U.S.

Canada

Mexico

For each key country, detailed analysis and data for annual revenue are available for 2019-2030. The breakdown of key national markets by Resin, Function, and Industry Vertical over the forecast years is also included.

The report also covers current competitive scenario and the predicted trend; and profiles key vendors including market leaders and important emerging players.

Specifically, potential risks associated with investing in North America specialty films market are assayed quantitatively and qualitatively through GMD's Risk Assessment System. According to the risk analysis and evaluation, Critical Success Factors (CSFs) are generated as a guidance to help investors & stockholders identify emerging opportunities, manage and minimize the risks, develop appropriate business models, and make wise strategies and decisions.
