Abstracts

North America wireless healthcare market is expected to grow by 22.0% annually in the forecast period and reach \$103.02 billion by 2026.

Highlighted with 26 tables and 48 figures, this 109-page report “North America Wireless Healthcare Market 2020-2026 by Component, Device, Technology, Application, End User, and Country: Trend Forecast and Growth Opportunity” is based on a comprehensive research of the entire North America wireless healthcare market and all its sub-segments through extensively detailed classifications. Profound analysis and assessment are generated from premium primary and secondary information sources with inputs derived from industry professionals across the value chain. In this report 2019 is the base year for market analysis, with historic study covering 2015-2019 and forecast covering 2020-2026.

(Please Note: The report will be updated before delivery to make sure that the latest historical year is the base year and the forecast covers at least 5 years over the base year.)

In-depth qualitative analyses include identification and investigation of the following aspects:

Market Structure

Growth Drivers

Restraints and Challenges

Emerging Product Trends & Market Opportunities

Porter's Fiver Forces

The trend and outlook of North America market is forecast in optimistic, balanced, and conservative view. The balanced (most likely) projection is used to quantify North America wireless healthcare market in every aspect of the classification from perspectives of Component, Device, Technology, Application, End User, and Country. Based on Component, the North America market is segmented into the following sub-markets with annual revenue (\$ mn) for 2015-2026 included in each section.

Hardware

Software

Service

Based on Device, the North America market is segmented into the following sub-markets with annual revenue (\$ mn) for 2015-2026 included in each section.

Tablet PC

Smartphone

Mobile Phone

Pager

PDA

Based on Technology, the North America market is segmented into the following sub-markets with annual revenue (\$ mn) for 2015-2026 included in each section.

WPAN

RFID, RTLS, and IPS

Bluetooth

Ant+

Ultra-wide Band (UWB)

ZigBee

Z-wave

WWAN

3G and 4G

CDMA

GPRS

GPS

WLAN/Wi-Fi

WiMAX

Based on Application, the North America market is segmented into the following sub-markets with annual revenue (\$ mn) for 2015-2026 included in each section.

Healthcare Amenities

Home Care

Pharmaceuticals

Physicians

Telehealth

Medical & Diagnostic Laboratories

Other Applications

Based on End User, the North America market is segmented into the following sub-markets with annual revenue (\$ mn) for 2015-2026 included in each section.

Patients/Individuals

Payers

Providers

Geographically, the following regions together with the listed national/local markets are fully investigated:

U.S.

Canada

Mexico

For each of the aforementioned countries, market analysis and revenue data are available for 2015-2026. The breakdown of major national markets by Device, Technology, and Application over the years 2015-2026 are also included.

The report also covers current competitive scenario and the predicted trend; and profiles key vendors including market leaders and important emerging players.

Specifically, potential risks associated with investing in North America wireless healthcare market are assayed quantitatively and qualitatively through GMD's Risk Assessment System. According to the risk analysis and evaluation, Critical Success Factors (CSFs) are generated as a guidance to help investors & stockholders identify emerging opportunities, manage and minimize the risks, develop appropriate business models, and make wise strategies and decisions.
