Abstracts

Europe polyamide powder for 3D printing market accounted for $25.1 million in 2020 and will grow by 21.0% annually over 2020-2030 owing to the technological advancements in the medical 3D printing technology, rising investments in the healthcare sector, and the rising adoption of 3D printed medical implants, medical devices and bio printed organoids.

Highlighted with 39 tables and 58 figures, this 114-page report “Polyamide Powder for 3D Printing: Europe Market 2020-2030 by Technology, Product, Application, Industry Vertical, and Country” is based on a comprehensive research of the entire Europe polyamide powder for 3D printing market and all its sub-segments through extensively detailed classifications. Profound analysis and assessment are generated from premium primary and secondary information sources with inputs derived from industry professionals across the value chain. The report is based on studies on 2015-2020 and provides forecast from 2021 till 2030 with 2020 as the base year. (Please note: The report will be updated before delivery so that the latest historical year is the base year and the forecast covers at least 5 years over the base year.)

In-depth qualitative analyses include identification and investigation of the following aspects:

Emerging Product Trends & Market Opportunities

Porter’s Fiver Forces

The trend and outlook of Europe market is forecast in optimistic, balanced, and conservative view by taking into account of COVID-19. The balanced (most likely) projection is used to quantify Europe polyamide powder for 3D printing market in every aspect of the classification from perspectives of Technology, Product, Application, Industry Vertical, and Country.

Based on Technology, the Europe market is segmented into the following sub-markets with annual revenue ($ mn) and sales volume (metric tons) for 2020-2030 included in each section.

Selective Laser Sintering

Multijet Fusion

Based on Product, the Europe market is segmented into the following sub-markets with annual revenue ($ mn) and sales volume (metric tons) for 2020-2030 included in each section.

Polyamide 12

Polyamide 2200

Polyamide 11

Polyamide 6

Polyamide 11 CF & GF

Polyamide 12 CF & GF

Other Products

Based on Application, the Europe market is segmented into the following sub-markets with annual revenue ($ mn) and sales volume (metric tons) for 2020-2030 included in each section.

Prototyping

Tooling

Functional Part Manufacturing

Other Applications

Based on Industry Vertical, the Europe market is segmented into the following sub-markets with annual revenue ($ mn) and sales volume (metric tons) for 2020-2030 included in each section.

Aerospace

Consumer Goods

Automotive

Medical Industry

Defense

Construction

Other Verticals

Geographically, the following national/local markets are fully investigated:

Germany

UK

France

Spain

Italy

Russia

Rest of Europe (further segmented into Netherlands, Switzerland, Turkey, Poland, Sweden, Belgium, Austria, Ireland, Norway, Denmark, and Finland)

For each key country, detailed analysis and data for annual revenue ($ mn) and sales volume (metric tons) are available for 2020-2030. The breakdown of key national markets by Technology, Product, and Industry Vertical over the forecast years is also included.

The report also covers current competitive scenario and the predicted trend; and profiles key vendors including market leaders and important emerging players.

Specifically, potential risks associated with investing in Europe polyamide powder for 3D printing market are assayed quantitatively and qualitatively through GMD's Risk Assessment System. According to the risk analysis and evaluation, Critical Success Factors (CSFs) are generated as a guidance to help investors & stockholders identify emerging opportunities, manage and minimize the risks, develop appropriate business models, and make wise strategies and decisions.

Key Players (this may not be a complete list and extra companies can be added upon request):
