The global alpaca apparel and accessories market size is anticipated to reach USD 1.09 billion by 2030 and expand at a CAGR of 7.6% from 2025 to 2030, according to a new report by Grand View Research, Inc. The rise in demand for sustainable fashion is driving the alpaca apparel and accessories market. Consumers are becoming more conscious of the environmental impact of their purchases, seeking eco-friendly, ethical options like alpaca fiber. The softness, warmth, and hypoallergenic qualities of this fabric attract buyers looking for high-quality, durable, and sustainable products. Increased awareness of the unique benefits of this fabric has led to more consumers opting for alpaca garments and accessories, boosting market growth.

Rising disposable income, especially in emerging markets, is increasing the affordability of premium alpaca apparel and accessories. There is a rise in the number of consumers willing to invest in high-quality, luxurious items, such as alpaca sweaters, coats, and scarves. In addition, the expansion of both online and offline retail channels has enhanced accessibility, allowing consumers to explore and purchase these products more easily.
