China Electronic Design Automation Software Market Growth & Trends

The China electronic design automation software market size is anticipated to reach USD 2.76 billion by 2030, recording a CAGR of 11.2%, according to a study conducted by Grand View Research, Inc. The EDA market in China experienced a minor setback due to the suspension of research and manufacturing activities during the pandemic. However, the market bounced back strongly, with the resumption of activities to its full potential by the end of 2020 and continued its growth over the next year. The market is expected to register stable growth over the forecast period owing to the increasing adoption of EDA tools to address the complexities and enhance chip designs to support advanced technologies.

Further, favorable government initiatives and increasing R&D investments from domestic players to drive product innovations are expected to drive market growth. The Chinese government is focused on investing in home-grown semiconductor development to provide competition to foreign companies, which is anticipated to contribute to the growth of the EDA market. The government is offering generous incentives to encourage firms and attract talents along the semiconductor supply chain in a bid to fast-track the domestic chip industry development. For instance, in January 2022, the Shanghai government announced that it would subsidize 30% (up to USD15 million) of investments made on microchip software projects, which include EDA

software.

China has one of the largest automotive manufacturing industries, and innovations such as autonomous cars, regenerative braking, and ADAS, coupled with the rising demand for electric vehicles, are expected to contribute to market growth. China accounted for more than 50% of electric vehicle production and exported approximately 500,000 electric vehicles in 2021. The increasing popularity of electric vehicles and demand for advanced features is expected to drive the OEMs to collaborate with chip manufacturers and EDA vendors to develop specialized chipsets for supporting automotive hardware. This is expected to open up new avenues for adopting EDA tools, which bodes well for market growth.

China Electronic Design Automation Software Market Report Highlights

The microprocessors and controllers segment is expected to register the highest growth of more than 10% over the forecast period. The growing complexities in chip designs and the increasing need for automating the design process are expected to contribute to the segment growth

The memory management unit segment is anticipated to exhibit steady growth over the forecast period, owing to the rising demand for high storage capacities and the latest operating system and application upgrades

Several domestic vendors in China are focused on developing innovative EDA software to capitalize on the growing demand for sophisticated chip designs required for smart home appliances, IoT devices, and consumer electric products. As such, vendors are engaged in patenting technologies for staying relevant in the industry and gaining a competitive edge in the market

Contents

CHAPTER 1. METHODOLOGY AND SCOPE

- 1.1. Research Methodology
- 1.2. Research Scope and Assumptions
- 1.3. List of Data Sources

CHAPTER 2. EXECUTIVE SUMMARY

- 2.1. China Electronic Design Automation (EDA) Software - Industry Snapshot & Key Buying Criteria, 2018 - 2030

CHAPTER 3. CHINA ELECTRONIC DESIGN AUTOMATION (EDA) SOFTWARE INDUSTRY OUTLOOK

- 3.1. Market Segmentation
- 3.2. Market Size and Growth Prospects, 2018 - 2030
- 3.3. Value Chain Analysis
- 3.4. Market Dynamics
 - 3.4.1. Market driver analysis
 - 3.4.2. Market restraint/challenge analysis
 - 3.4.3. Market opportunity analysis
- 3.5. Key Opportunities Prioritized
- 3.6. Industry Analysis - Porter's Five Forces Analysis
 - 3.6.1. Supplier Power
 - 3.6.2. Buyer Power
 - 3.6.3. Substitution Threat
 - 3.6.4. Threat from New Entrants
- 3.7. PEST Analysis
 - 3.7.1. Political Landscape
 - 3.7.2. Environmental Landscape
 - 3.7.3. Social Landscape
 - 3.7.4. Technology Landscape

CHAPTER 4. CHINA ELECTRONIC DESIGN AUTOMATION (EDA) SOFTWARE MARKET: END-USE OUTLOOK

- 4.1. China Electronic Design Automation (EDA) Software Market Share by End-use,

2021 & 2030 (USD Million)

4.2. Microprocessors and Controllers

4.2.1. Market estimates and forecasts, 2018 - 2030 (USD Million)

4.3. Memory Management Unit (MMU)

4.3.1. Market estimates and forecasts, 2018 - 2030 (USD Million)

CHAPTER 5. COMPETITIVE LANDSCAPE

5.1. Agnisys, Inc.

5.1.1. Company overview

5.1.2. Financial performance

5.1.3. Product benchmarking

5.1.4. Strategic initiatives

5.2. Altium Limited

5.2.1. Company overview

5.2.2. Financial performance

5.2.3. Product benchmarking

5.2.4. Strategic initiatives

5.3. ANSYS, Inc.

5.3.1. Company overview

5.3.2. Financial performance

5.3.3. Product benchmarking

5.3.4. Strategic initiatives

5.4. Arcas-tech (Chengdu) co. Ltd

5.4.1. Company overview

5.4.2. Financial performance

5.4.3. Product benchmarking

5.4.4. Strategic initiatives

5.5. Beijing Aerdai Information Technology

5.5.1. Company overview

5.5.2. Financial performance

5.5.3. Product benchmarking

5.5.4. Strategic initiatives

5.6. Cadence Design Systems, Inc.

5.6.1. Company overview

5.6.2. Financial performance

5.6.3. Product benchmarking

5.6.4. Strategic initiatives

5.7. Cogenda

- 5.7.1. Company overview
- 5.7.2. Financial performance
- 5.7.3. Product benchmarking
- 5.7.4. Strategic initiativesDaiichi J
- 5.8. Empyrean Technology Co., Ltd.
 - 5.8.1. Company overview
 - 5.8.2. Financial performance
 - 5.8.3. Product benchmarking
 - 5.8.4. Strategic initiatives
- 5.9. Semitronix Corporation
 - 5.9.1. Company overview
 - 5.9.2. Financial performance
 - 5.9.3. Product benchmarking
 - 5.9.4. Strategic initiatives
- 5.10. Silvaco, Inc.
 - 5.10.1. Company overview
 - 5.10.2. Financial performance
 - 5.10.3. Product benchmarking
 - 5.10.4. Strategic initiatives
- 5.11. Synopsys, Inc.
 - 5.11.1. Company overview
 - 5.11.2. Financial performance
 - 5.11.3. Product benchmarking
 - 5.11.4. Strategic initiatives
- 5.12. Xpedic
 - 5.12.1. Company overview
 - 5.12.2. Financial performance
 - 5.12.3. Product benchmarking
 - 5.12.4. Strategic initiatives
- 5.13. XEPIC Corporation Limited
 - 5.13.1. Company overview
 - 5.13.2. Financial performance
 - 5.13.3. Product benchmarking
 - 5.13.4. Strategic initiatives
- 5.14. Zuken
 - 5.14.1. Company overview
 - 5.14.2. Financial performance
 - 5.14.3. Product benchmarking
 - 5.14.4. Strategic initiatives
