Europe Carbon Capture Utilization Market Growth & Trends

The Europe carbon capture utilization market size is expected to reach USD 3,985.4 million by 2028, according to a new report by Grand View Research, Inc. The market is expected to expand at a CAGR of 18.4% from 2020 to 2028. Increasing applications of CCU in the enhanced oil recovery (EOR) in the oil and gas segment are expected to contribute to the growth of the market. Further, the food and beverages, chemicals, cement, and other industries are anticipated to be the major application segments that are expected to contribute to the growth of the market over the forecast period.

Industrial emerged as the largest market share in 2020 in terms of value for application segment as it is used in the industries such as cement, chemicals, power, steel, food, and beverages to capture carbon and utilize it for a better purpose. In terms of value, cement in the industrial application segment emerged as the largest segment in 2020 as many companies are showing interest in the adoption of carbon capture and utilization technologies in their manufacturing plants in the form of pilot-scale projects to evaluate the technology and economics of carbon capture and recovery, which is expected to contribute to the growth of the market in the coming years.

The demand for carbon dioxide has been experiencing a dip in sectors such as

beverage manufacturing as restaurants and bars across Europe have shut operations. Also, reduced demand for oil has resulted in halted operations in oil production in some of the exploration sites of oil & gas vendors that employ carbon dioxide-based EOR techniques. Further, the demand for industrial-grade carbon dioxide has also been on the lower side as industrial activities have slowed down in states badly affected by COVID-19.

However, the demand for CCU for the utilization of carbon dioxide has been on a higher side from medical and fire-fighting applications in Europe. The requirement for a large number of COVID care centers across the country, along with a number of medical applications of carbon dioxide, has resulted in high demand for medical-grade carbon dioxide in the region in recent times. Further, the requirement for fire-fighting equipment in newly developed hospitals and centers and upgrade in safety standards in existing facilities have resulted in increased demand for carbon dioxide in firefighting applications in the country.

Significant technological advancements in non-power sectors, such as petroleum refining, chemical, cement manufacturing, and metal foundry, in mature economies, such as the Netherlands, the U.K., and Norway, have led to the implementation of CCU technologies in small or pilot phases. Such favorable initiatives, coupled with increasing awareness among policymakers across various industrial sectors regarding the benefits of such techniques to curtail CO₂ emissions are likely to provide immense opportunities for future investments.

The industrial application segment dominated the market and accounted for a revenue share of 41.6% in 2020. The cement industry emits a significant amount of CO₂ during the calcination of limestone (CaCO₃) to form CaO, which is the main precursor for cement production. The growing number of regulatory measures undertaken by the local governments to limit carbon emissions has created lucrative opportunities for the carbon capture utilization market.

Moreover, carbon dioxide is widely used for upstream well servicing applications such as hydraulic fracturing and Enhanced Oil Recovery (EOR) applications such as miscible oil displacement in the oil & gas industry. Carbon dioxide is injected into the rock pores to recover crude oil. CO₂ is miscible with crude oil and is comparatively less expensive than other similar miscible fluids used for these applications, making it a preferred choice for EOR applications.

Europe Carbon Capture Utilization Market Report Highlights

In terms of revenue, the industrial application segment accounted for a prominent share in the market in 2020 and is further expected to witness prominent growth over the forecast period

As of 2020, Germany accounted for 20.0% revenue share in the overall market. Government initiatives, supporting policies and plans, and availability of funds are some of the factors that are expected to drive the market in the country

Various strategic initiatives were recorded over the past few years to boost the growth of the market. For instance, in March 2021, Aker carbon capture and Siemens energy joined forces to generate sustainable power. Both companies have signed an MoU to develop a combined offering for the Carbon capture solutions that can be used in gas turbines and gas power plants. This collaboration will help both companies to explore ways to jointly track the development of major projects across the globe

Contents

CHAPTER 1 METHODOLOGY & SCOPE

- 1.1 Market Segmentation & Scope
- 1.2 Market Definition
 - 1.2.1 Assumptions
- 1.3 Information Procurement
 - 1.3.1 Purchased Database
 - 1.3.2 GVR's Internal Database
 - 1.3.3 Secondary Sources
 - 1.3.4 Third-Party Perspective
 - 1.3.5 Primary Research
- 1.4 Information Analysis
 - 1.4.1 Data Analysis Models
- 1.5 Market Formulation and Data Visualization
- 1.6 Data Validation and Publishing

CHAPTER 2 EXECUTIVE SUMMARY

- 2.1 Market Outlook
- 2.2 Segmental Outlook
- 2.3 Competitive Insights
- 2.4 Market Summary

CHAPTER 3 MARKET VARIABLES, TRENDS & SCOPE

- 3.1 Penetration & Growth Prospect Mapping
- 3.2 Industry value chain analysis
- 3.3 Regulatory Framework
 - 3.3.1 Standard & Compliances
 - 3.3.2 Safety
- o Austria
- o Germany
- o France
- o Norway
- o Greenhouse Gas Emission Trading Act
- 3.4 Technology Overview
 - 3.4.1 Capture

- 3.4.1.1 Post-combustion
- 3.4.1.2 Pre-combustion
- 3.4.1.3 Oxy-fuel combustion
- 3.4.1.4 Industrial Process/ Industrial Separation
- 3.4.2 Utilization
- 3.5 Market Dynamics
 - 3.5.1 Market Driver Analysis
 - 3.5.1.1 Favorable Government Regulations And Funding Initiatives In The European Union
 - 3.5.1.2 Increasing use of carbon dioxide in enhanced oil recovery (EOR)
 - 3.5.2 Market Restraint Analysis
 - 3.5.2.1 High cost of carbon capture & storage (CCS) technology
 - 3.5.3 Market Opportunity Analysis
 - 3.5.4 Market Challenge Analysis
- 3.6 Europe Carbon Capture Utilization Industry Analysis - Porter's
- 3.7 Europe Carbon Capture Utilization Industry Analysis - PESTEL analysis
- 3.8 Impact of Corona Virus on Europe Carbon Capture Utilization (CCU) Market
 - 3.8.1 Demand-Side
 - 3.8.2 Impact Verdict - Medium
- 3.9 Global Carbon Dioxide (CO₂) Profit Margin Analysis
- 3.10 Global Carbon Dioxide (CO₂) Historic and Forecast Pricing Scenario
- 3.11 Europe Pricing Scenario for Carbon Capture Utilization
- 3.12 Global Carbon Dioxide (CO₂) Price Development Estimated Emission Coverage & Permit Price, 2018
- 3.13 Carbon Dioxide (CO₂) as a Raw Material
 - 3.13.1 Global Applications (End Users Industries) of CO₂ as a Raw Material (2017 to 2028) (Kilotons, USD Million)
 - 3.13.1.1 Oil and Gas
 - 3.13.1.2 Food and Beverages
 - 3.13.1.3 Medical
 - 3.13.1.4 Fire Fighting
 - 3.13.1.5 Others

CHAPTER 4 EUROPE CARBON CAPTURE UTILIZATION (CCU) MARKET: APPLICATION ESTIMATES & TREND ANALYSIS

- 4.1 Europe Carbon Capture Utilization (CCU) Market: Application Movement Analysis, 2020 & 2028
- 4.2 Adoption outlook of CCU

4.3 Industries and sub-verticals for outlook adoption of CCU

4.4 Market size & forecasts and trend analysis, 2017 to 2028 for the following:

4.4.1 Enhanced Oil Recovery (EOR)

4.4.1.1 Europe Carbon Capture Utilization (CCU) market estimates and forecasts, by EOR Application, 2017 - 2028 (Million Tons) (USD Million)

4.4.2 Industrial

4.4.2.1 Europe Carbon Capture Utilization (CCU) market estimates and forecasts, by Industrial Application, 2017 - 2028 (USD Million) (Million Tons)

4.4.3 Agricultural

4.4.3.1 Europe Carbon Capture Utilization (CCU) market estimates and forecasts, by Agricultural Application, 2017 - 2028 (USD Million) (Million Tons)

CHAPTER 5 EUROPE CARBON CAPTURE UTILIZATION (CCU) MARKET: REGIONAL ESTIMATES & TREND ANALYSIS

5.1 Europe Carbon Capture Utilization (CCU) Market: Regional Movement Analysis, 2020 & 2028

5.2 Europe

5.2.1 Germany

5.2.1.1 Germany Carbon Capture Utilization (CCU) market estimates and forecasts, by Application, 2017 - 2028 (Million Tons) (USD Million)

5.2.2 France

5.2.2.1 France Carbon Capture Utilization (CCU) market estimates and forecasts, by Application, 2017 - 2028 (Million Tons) (USD Million)

5.2.3 Netherlands

5.2.3.1 Netherlands Carbon Capture Utilization (CCU) market estimates and forecasts, by Application, 2017 - 2028 (Million Tons) (USD Million)

5.2.4 Poland

5.2.4.1 Poland Carbon Capture Utilization (CCU) market estimates and forecasts, by Application, 2017 - 2028 (Million Tons) (USD Million)

5.2.5 Austria

5.2.5.1 Austria Carbon Capture Utilization (CCU) market estimates and forecasts, by Application, 2017 - 2028 (Million Tons) (USD Million)

CHAPTER 6 EUROPE CARBON CAPTURE UTILIZATION (CCU) MARKET - COMPETITIVE LANDSCAPE

6.1 Recent Developments & Impact Analysis, By Key Market Participants

6.2 Vendor landscape

- 6.2.1 List of key distributors and channel partners
- 6.2.2 List of POTENTIAL CO2 Customers
- 6.3 Company/Competition Categorization
 - 6.3.1 Company Market Position Analysis
- 6.4 Public Companies
 - 6.4.1 Competitive Dashboard Analysis
 - 6.4.2 List of Public Companies
- 6.5 Private Companies
 - 6.5.1 List of Emerging Companies /Technology Disruptors/Innovators

CHAPTER 7 COMPANY PROFILES

- 7.1 Royal Dutch Shell
 - 7.1.1 Company Overview
 - 7.1.2 Product Benchmarking
 - 7.1.3 Financial Performance
- 7.2 Aker Solutions
 - 7.2.1 Company Overview
 - 7.2.2 Financial Performance
 - 7.2.3 Product Benchmarking
 - 7.2.4 Strategic Initiatives
- 7.3 Equinor ASA
 - 7.3.1 Company Overview
 - 7.3.2 Financial Performance
 - 7.3.3 Product benchmarking
 - 7.3.4 Strategic Initiatives
- 7.4 Linde plc
 - 7.4.1 Company Overview
 - 7.4.2 Financial Performance
 - 7.4.3 Product Benchmarking
 - 7.4.4 Strategic Initiatives
- 7.5 Siemens Energy
 - 7.5.1 Company Overview
 - 7.5.2 Financial Performance
 - 7.5.3 Product Benchmarking
- 7.6 Fluor Corporation
 - 7.6.1 Company Overview
 - 7.6.2 Financial Performance
 - 7.6.3 Product Benchmarking

7.6.4 Strategic Initiatives

7.7 Sulzer Ltd.

7.7.1 Company Overview

7.7.2 Financial Performance

7.7.3 Product Benchmarking

7.7.4 Strategic Initiatives

7.8 Mitsubishi Heavy Industries

7.8.1 Company Overview

7.8.2 Financial Performance

7.8.3 Product Benchmarking

7.8.4 Strategic Initiatives
