## **Abstracts**

The Middle East billiards and accessories market size was estimated at USD 6.7 million in 2024 and is projected to reach USD 7.7 million by 2033, growing at a CAGR of 1.6% from 2025 to 2033. The region's growing wealth, particularly in Gulf Cooperation Council (GCC) countries, has created a robust middle and upper class with significant disposable income.

This affluent demographic is increasingly investing in premium leisure activities and home entertainment, with billiards representing both a recreational pursuit and a status symbol. Middle Eastern countries are undergoing massive expansion in their hospitality infrastructure, with luxury hotels, resorts, entertainment complexes, and social clubs incorporating billiard facilities as standard amenities. Vision 2030 initiatives in Saudi Arabia and similar diversification strategies across the UAE and Qatar are driving investments in tourism and entertainment venues that feature billiard rooms.

The region has a predominantly young population that is cosmopolitan, tech-savvy, and seeking diverse entertainment options beyond traditional activities. Rapid urbanization has led to the development of modern residential complexes and lifestyle communities where billiards fit naturally into communal recreation spaces and private game rooms.

High-end residential developments increasingly feature dedicated entertainment spaces, with custom billiard rooms becoming desirable additions in luxury villas and penthouses. This trend reflects the regional preference for home-based entertainment

and hospitality.

Government is promoting diverse sporting activities beyond traditional favorites such as football and cricket, with billiards benefiting from increased recognition, organized tournaments, and youth development programs that are raising the sport's profile across the region.
