Middle East Orthotics Market Summary

The Middle East orthotics market size was estimated at USD 192.00 million in 2024 and is projected to reach USD 263.01 million by 2033, growing at a CAGR of 3.60% from 2025 to 2033. The orthotics market in the Middle East is growing due to various factors such as increasing musculoskeletal issues and foot complications related to diabetes.
