The global packaged sunflower seeds market size is expected to reach USD 1.76 billion by 2027, according to a new report by Grand View Research, Inc., expanding at a CAGR of 6.9% from 2020 to 2027. The growing demand for ready-to-eat foods and shifting preference towards healthy snacks have been driving the market. Such products have been gaining traction among sportsmen, especially baseball players, as an alternative to chewing tobacco. Packaged sunflower seeds are expected to gain traction as a functional snack in the upcoming years due to their high nutritional value.

Moreover, in the U.S., the product has gained traction among baseball players as an alternative to chewing tobacco.

Salted products held the largest share of more than 35.0% in 2019. However, the demand for innovative flavored products is growing significantly worldwide with the

rising introduction of assortment flavors in the market. Ranch, BBQ, dill pickle, cracked pepper, honey, and mustard are popular flavors of the product.

Europe dominated the market in 2019 with more than 40.0% share of the global revenue. The product has been consumed in the region for centuries as a snack food item.
