## **Abstracts**

The U.S. freestanding emergency department market size is expected to reach USD 5.0 billion by 2027, registering around 5.3% CAGR over the forecast period, according to a new report by Grand View Research, Inc. Convenience care represents a spectrum of care delivery models including retail clinics, urgent care centers, and freestanding emergency departments (FSEDs). These departments represent a budding opportunity within healthcare services space. Growing geriatric population is contributing to the increasing demand for freestanding emergency departments, as the elderly often require emergency care. In addition, FSEDs have no or short waiting times for treatments as compared to the emergency departments. FSEDs are often preferred as they are less crowded. These departments primarily cater to urban and suburban patients with insurance coverage or self-pay. Moreover, medical conditions of patients visiting FSEDs are less acute than the ones visiting emergency departments.

The growth of the freestanding ED segment opens up opportunities for independent companies such as Adeptus and hospitals such as HCA Healthcare, Inc. (HCA); Tenet Healthcare Corporation (THC); and Community Health Systems, Inc. (CYH). As the need for emergency room services grows, independent providers such as Adeptus Health and numerous private equity-backed companies are contributing actively to the industry. Also, the large acute care hospitals such as HCA, and others address this demand through the buildout of freestanding emergency rooms.

Further Key Findings from the Study Suggest:

In 2019, Hospital-based off-campus emergency department (OCED) held the largest share in the ownership segment of the U.S. FSED market and is expected to witness lucrative growth during the forecast period. This was attributed to the overcrowding of the hospital emergency department, and availability of high reimbursement for the treatment at OCED when compared with independent freestanding emergency department (IFSED), where no reimbursement is available

In 2019, Emergency department (ED) held the largest share in the service segment owing to a wide variety of services being provided for immediate care. It includes common medical services, such as treatment for stomach and abdominal pain, fever, headache, cough, back symptoms, and shortness of breath among others

The imaging service segment is expected to witness the highest growth during the forecast period. Majority of FSEDs offer basic imaging services, such as X-ray, ultrasound, and Computed Tomography (CT) scans. Freestanding emergency departments are either large facilities serving as many as 100 patients per day or small facilities serving 20 or fewer patients per day. Larger FSEDs can also offer MRI and primary care

Some of the key players operating in the U.S. freestanding emergency department market are Adeptus Health Inc.; Tenet Healthcare Corporation; Universal Health Services, Inc.; HCA Healthcare, Inc.; Community Health Systems, Inc.; Ascension Health; Legacy Lifepoint Health, Inc.; Ardent Health Services; and Emerus

  - 1.1.1 Ownership
  - 1.1.2 Services
  - 1.1.3 Estimates And Forecast Timeline
- 1.2 Research Methodology
- 1.3 Information Procurement
  - 1.3.1 Purchased Database
  - 1.3.2 Gvr's Internal Database
  - 1.3.3 Secondary Sources
  - 1.3.4 Primary Research
  - 1.3.5 Details Of Primary Research
- 1.4 Information Or Data Analysis
  - 1.4.1 Data Analysis Models
- 1.5 Market Formulation & Validation
- 1.6 Model Details
  - 1.6.1 Commodity Flow Analysis
    - 1.6.1.1 Approach 1: Commodity Flow Approach
  - 1.6.2 Volume Price Analysis
    - 1.6.2.1 Approach 2: Volume Price Analysis
- 1.7 List Of Secondary Sources
- 1.8 List Of Abbreviations
- 1.9 Objectives
  - 1.9.1 Objective
  - 1.9.2 Objective

### CHAPTER 2 EXECUTIVE SUMMARY

- 2.1 Market Outlook
- 2.2 Segment Outlook

### CHAPTER 3 MARKET VARIABLES, TRENDS & SCOPE

- 3.1 Market Lineage Outlook
  - 3.1.1 Related/Ancillary Market Outlook
- 3.2 Market Segmentation

- 3.2.1 Analysis
- 3.3 Market Dynamics
  - 3.3.1 Market Driver Analysis
    - 3.3.1.1 Rising Preference For Convenience Care
    - 3.3.1.2 Increase In Federal Funding Fuels The Growth Of The Market
