U.S. Infection Imaging Services Market Growth & Trends

The U.S. infection imaging services market size is expected to reach USD 42.99 billion by 2030, expanding at a CAGR of 4.3% from 2022 to 2030, according to a report published by Grand View Research, Inc. Medical imaging is increasingly being adopted to detect infections such as acute appendicitis, cardiovascular inflammation, tuberculosis, pneumonia, fever of unknown origin, osteomyelitis, systemic vascularity, musculoskeletal disorder, and cardiovascular inflammation. A rise in underlying diseases like diabetes, cancer, and obesity is the leading cause of these infections. For instance, the prevalence rate of osteomyelitis raised ~10% since the 1970s till date. The rise is attributed to the change in diagnostic patterns and the increase in the diabetic population.

A rise in the geriatric population and unhealthy lifestyles are factors responsible for the rise in infectious diseases. Appendicitis occurs in 7% of the U.S. population with an incidence rate of 1.1 cases per 1000 people per year. Additionally, the rise in endocarditis is also associated with increased comorbid conditions, increased placement of medical devices, and injection drug use. The rate of endocarditis increases by approximately 4.1% per year in the European region and increases by 106% over a period of 18 years. Factors such as the rise in infectious diseases and several underlying conditions are expected to boost the adoption of effective diagnostic

tools, fueling market growth.

Among all imaging modalities, nuclear medicine is showing promising results in the diagnosis of infectious diseases. It identifies crucial complementary information, allowing visualization of infectious pathophysiology beyond morphologic imaging. Numerous research activities are conducted using nuclear medicine techniques as the detection of metabolic abnormalities is done precisely by these techniques and it preceded morphological changes identified by structural imaging. Nuclear medicine techniques also show promising results in the diagnosis of COVID-19 infection. Thus, nuclear medicine holds a great growth opportunity as an identification tool in infection imaging.

Labeling of autologous leukocytes of purified neutrophils with In-111-oxine or 99m-Tc-HMPAO and imaging at variable time points to detect inflammatory bowel disease like Crohn's disease and ulcerative colitis. Thus, the adoption of nuclear medicine is rapidly increasing among end users and researchers to effectively and quickly diagnose critical disease conditions. The increased use of PET/CT and PET/MRI is also influencing the industry's growth. However, the outbreak of COVID-19 has led to a decline in diagnostic activities involving the detection of infectious diseases using imaging modalities and national lockdowns of universities and research institutes, halting numerous research activities in this space. This led to a decline in 2020.

U.S. Infection Imaging Services Market Report Highlights

The acute appendicitis segment dominated the market for U.S. infection imaging services and accounted for the largest revenue share of 24.06% in 2021. It is further expected to continue its dominance over the forecast period

The atherosclerosis segment is expected to register the fastest CAGR of 4.6% during the forecast period. The need for early and precise diagnosis for studying various diseases is expected to contribute to the growth of the segment

Osteomyelitis shows nonspecific symptoms, and physical examination and laboratory results often delay identification. Techniques like unenhanced MRI can be used to identify tissue changes and the involvement of surrounding bones within two days of infection onset

Contents

CHAPTER 1. METHODOLOGY AND SCOPE

1.1. Market Segmentation & Scope

1.1.1. Indication

1.1.2. Estimates and forecast timeline

1.2. Research Methodology

1.3. Information Procurement

1.3.1. Purchased database

1.3.2. GVR's internal database

1.3.3. Secondary sources

1.3.4. Primary research

1.4. Information or Data Analysis

1.4.1. Data analysis models

1.5. Market Formulation & Validation

1.6. Model Details

1.6.1. Commodity flow analysis (Model 1)

1.6.1.1. Approach 1: Commodity flow approach

1.6.2. Volume price analysis (Model 2)

1.6.2.1. Approach 2: Volume price analysis

1.7. List of Secondary Sources

1.8. List of Primary Sources

1.9. Objectives

1.9.1. Objective 1: Understanding the market dynamics

1.9.2. Objective 2: Understanding the market estimates and forecasts

1.9.3. Objective 3: Understanding the attributes such as strategy framework, competitor categorization

1.9.4. Objective 4: Understanding the key product and application scopes to conclude on the market size

CHAPTER 2. EXECUTIVE SUMMARY

2.1. Market Outlook

2.2. Segment Outlook

2.3. Competitive Insights

CHAPTER 3. NEAR INFRARED IMAGING MARKET VARIABLES, TRENDS & SCOPE

- 3.1. Market Lineage outlook
 - 3.1.1. Parent market outlook
 - 3.1.2. Related/ancillary market outlook
- 3.2. Penetration & Growth Prospect Mapping
- 3.3. Product Pipeline Analysis, by Stage
- 3.4. Market Dynamics
 - 3.4.1. Market Driver Analysis
 - 3.4.1.1. Increasing prevalence of infectious diseases
 - 3.4.1.2. Growing number of outpatient settings with imaging services
 - 3.4.1.3. Growing awareness about medical imaging
 - 3.4.2. Market Restraint Analysis
 - 3.4.2.1. Radiation exposure
- 3.5. Near Infrared Imaging: Market Analysis Tools
 - 3.5.1. Industry Analysis - Porter's
 - 3.5.1.1. Supplier Power
 - 3.5.1.2. Buyer Power
 - 3.5.1.3. Substitution Threat
 - 3.5.1.4. Threat from new entrant
 - 3.5.1.5. Competitive rivalry
 - 3.5.2. PESTEL Analysis
 - 3.5.2.1. Political Landscape
 - 3.5.2.2. Environmental Landscape
 - 3.5.2.3. Social Landscape
 - 3.5.2.4. Technology Landscape
 - 3.5.2.5. Legal Landscape
 - 3.5.3. Major Deals & Strategic Alliances Analysis
 - 3.5.4. Covid-19 Impact Analysis

CHAPTER 4. U.S. INFECTION IMAGING SERVICES MARKET: SEGMENT ANALYSIS, BY INDICATION, 2018 - 2030 (USD MILLION)

- 4.1. Definitions & Scope
- 4.2. Indication market share analysis, 2021 & 2030
- 4.3. Segment Dashboard
- 4.4. U.S. Infection Imaging Services Market, by indication, 2018 to 2030
- 4.5. Market Size & Forecasts and Trend Analyses, 2018 to 2030 for the following
 - 4.5.1. Fever of unknown origin
 - 4.5.1.1. Nuclear Medicine

- 4.5.1.2. Others
- 4.5.2. Orthopedic Hardware
 - 4.5.2.1. Nuclear Medicine
 - 4.5.2.2. Others
- 4.5.3. Musculoskeletal infection
 - 4.5.3.1. Nuclear Medicine
 - 4.5.3.2. Others
- 4.5.4. Acute Appendicitis
 - 4.5.4.1. Nuclear Medicine
 - 4.5.4.2. Others
- 4.5.5. Osteomyelitis
 - 4.5.5.1. Nuclear Medicine
 - 4.5.5.2. Others
- 4.5.6. Systemic vasculitis
 - 4.5.6.1. Nuclear Medicine
 - 4.5.6.2. Others
- 4.5.7. Skin and soft tissue infection
 - 4.5.7.1. Nuclear Medicine
 - 4.5.7.2. Others
- 4.5.8. Cardiovascular inflammation
 - 4.5.8.1. Nuclear Medicine
 - 4.5.8.2. Others
- 4.5.9. Pneumonia
 - 4.5.9.1. Nuclear Medicine
 - 4.5.9.2. Others
- 4.5.10. Tuberculosis
 - 4.5.10.1. Nuclear Medicine
 - 4.5.10.2. Others
- 4.5.11. Endocarditis
 - 4.5.11.1. Nuclear Medicine
 - 4.5.11.2. Others
- 4.5.12. Myocarditis
 - 4.5.12.1. Nuclear Medicine
 - 4.5.12.2. Others
- 4.5.13. LVAD infection
 - 4.5.13.1. Nuclear Medicine
 - 4.5.13.2. Others
- 4.5.14. Crohn's disease
 - 4.5.14.1. Nuclear Medicine

- 4.5.14.2. Others
- 4.5.15. Colitis
 - 4.5.15.1. Nuclear Medicine
 - 4.5.15.2. Others
- 4.5.16. Atherosclerosis
 - 4.5.16.1. Nuclear Medicine
 - 4.5.16.2. Others
- 4.5.17. Coronary artery disease
 - 4.5.17.1. Nuclear Medicine
 - 4.5.17.2. Others
- 4.5.18. Organ transplant rejection
 - 4.5.18.1. Nuclear Medicine
 - 4.5.18.2. Others
- 4.5.19. Others
 - 4.5.19.1. Nuclear Medicine
 - 4.5.19.2. Others

CHAPTER 5. OTHERS U.S. INFECTION IMAGING SERVICES MARKET - COMPETITIVE ANALYSIS

- 5.1. Key companies profiled
 - 5.1.1. Rayus Radiology
 - 5.1.1.1. Company Overview
 - 5.1.1.2. Financial Performance
 - 5.1.1.3. Product Benchmarking
 - 5.1.1.4. Strategic Initiatives
 - 5.1.2. CMS Diagnostic Services
 - 5.1.2.1. Company Overview
 - 5.1.2.2. Financial Performance
 - 5.1.2.3. Product Benchmarking
 - 5.1.2.4. Strategic Initiatives
 - 5.1.3. Radnet, Inc
 - 5.1.3.1. Company Overview
 - 5.1.3.2. Financial Performance
 - 5.1.3.3. Product Benchmarking
 - 5.1.3.4. Strategic Initiatives
 - 5.1.4. Dignity Health
 - 5.1.4.1. Company Overview
 - 5.1.4.2. Financial Performance

- 5.1.4.3. Product Benchmarking
- 5.1.4.4. Strategic Initiatives
- 5.1.5. Alliance Medical
 - 5.1.5.1. Company Overview
 - 5.1.5.2. Financial Performance
 - 5.1.5.3. Product Benchmarking
 - 5.1.5.4. Strategic Initiatives
- 5.1.6. Inhealth Group
 - 5.1.6.1. Company Overview
 - 5.1.6.2. Financial Performance
 - 5.1.6.3. Product Benchmarking
 - 5.1.6.4. Strategic Initiatives
- 5.1.7. Sonic Healthcare
 - 5.1.7.1. Company Overview
 - 5.1.7.2. Financial Performance
 - 5.1.7.3. Product Benchmarking
 - 5.1.7.4. Strategic Initiatives
- 5.1.8. Medica Group
 - 5.1.8.1. Company Overview
 - 5.1.8.2. Financial Performance
 - 5.1.8.3. Product Benchmarking
 - 5.1.8.4. Strategic Initiatives
- 5.1.9. Unilabs
 - 5.1.9.1. Company Overview
 - 5.1.9.2. Financial Performance
 - 5.1.9.3. Product Benchmarking
 - 5.1.9.4. Strategic Initiatives
- 5.1.10. Simonmed Imaging
 - 5.1.10.1. Company Overview
 - 5.1.10.2. Financial Performance
 - 5.1.10.3. Product Benchmarking
 - 5.1.10.4. Strategic Initiatives
