Abstracts

The U.S. sex convention mansions market size was valued at USD 107.3 million in 2025 and is projected to grow from USD 116.4 million in 2026 to USD 204.1 million by 2033, at a CAGR of 8.4% over the forecast period from 2026 to 2033. This growth is driven by the growing mainstream acceptance of sexual wellness, kink, and alternative lifestyle communities, which has increased consumer willingness to attend in-person experiential events. The rapid growth of creator-led adult content platforms has also contributed to market expansion, as adult content creators, educators, and influencers use conventions to engage directly with their audiences, collaborate with industry participants, and monetize through merchandise and paid experiences.
