### SUMMARY

A respirator is a device designed to protect the wearer from inhaling particulate matter, including airborne microorganisms, fumes, vapours, i.e. gases. Respirators range from relatively inexpensive single-use, disposable face masks to more robust reusable models with replaceable cartridges and are used by the military, private industry and the public. Reusable respirators are available in both the half-face and full-face variety and can offer protection not only against airborne particulates, but gases, fumes and vapors as well.
